*The Worlds of George RR Martin* Tom Huddleston,2024-09-24 In the many realms of modern fantasy there is only one true King and his name is George Raymond Richard Martin With A Song of Ice and Fire Martin has created a world on a scale almost unrivalled by any other single writer Approaching two million words and still evolving this genuinely epic series of novels with its deeply interlocking narratives finely crafted drama and enormous range of characters is a creation of extraordinary breadth So how did a writer best known for short stories come to craft such a gigantic sequence of novels and what is the key to their extraordinary success What sources historical literary and personal did Martin draw upon in the writing and what inspiration did they give him The Worlds of George R R Martin is an in depth bringing together of the enormous range of inspirations behind Martin s work from historical borrowings as wide ranging as the Roman empire the Wars of the Roses and the Mongol conquests to diverse literary and mythological texts and Martin s own family experience and biography Dragon Martin Arnold,2018-06-15 From the fire breathing beasts of North European myth and legend to the Book of Revelation s Great Red Dragon of Hell from those supernatural agencies of imperial authority in ancient China to the so called dragon women who threaten male authority dragons are a global phenomenon one that has troubled humanity for thousands of years These often scaly beasts take a wide variety of forms and meanings but there is one thing they all have in common our fear of their formidable power and as a consequence our need either to overcome appease or in some way assume that power as our own In this fiery cultural history Martin Arnold asks how these unifying impulses can be explained Are they owed to our need to impose order on chaos in the form of a dragon slaying hero Is it our terror of nature writ large unleashed in its most destructive form Or is the dragon nothing less than an expression of that greatest and most disturbing mystery of all our mortality Tracing the history of ideas about dragons from the earliest of times to Game of Thrones Arnold explores exactly what it might be that calls forth such creatures from the darkest corners of our collective imagination

Karl Fugelso,2014 Essays on the modern reception of the Middle Ages built round the central theme of the ethics of medievalism Medievalism in A Song of Ice and Fire and Game of Thrones Shiloh Carroll,2018 Game of Thrones is famously inspired by the Middle Ages but how authentic is the world it presents This volume offers different angles to the question One of the biggest attractions of George R R Martin s high fantasy series A Song of Ice and Fire and by extension its HBO television adaptation Game of Thrones is its claim to historical realism The author the directors and producers of the adaptation and indeed the fans of the books and show all lay claim to Westeros its setting as representative of an authentic medieval world But how true are these claims Is it possible to faithfully represent a time so far removed from our own in time and culture And what does an authentic medieval fantasy world look like This book explores Martin s and HBO s approaches to and beliefs about the Middle Ages and how those beliefs fall into traditional medievalist and fantastic literary patterns Examining both books and programme from a range of critical approaches medievalism theory gender theory queer theory postcolonial theory and race theory Dr Carroll analyzes how the drive for historical realism affects the books and show s treatment of men women people of colour sexuality and imperialism as well as how the author and showrunners discuss these effects outside the texts themselves SHILOH CARROLL teaches in the writing center at Tennessee State University

**Science Fiction, Fantasy, and Politics** Dan Hassler-Forest,2016-07-21 From Tolkien to Star Trek from Game of Thrones to Battlestar Galactica and from The Walking Dead to Janelle Mon e s Afrofuturist concept albums transmedia world building offers us complex and immersive environments beyond capitalism This book examines the ways in which these popular storyworlds offer tools for anticapitalist theory and practice Building on Hardt and Negri s theory of global capitalism Science Fiction Fantasy and Politics shows how transmedia world building has the potential of offering more than a momentary escape from capitalist realism in the age of media convergence and participatory culture The book features eight fantastic storyworlds that offer vivid illustrations of global capitalism s contradictory logic Approaching transmedia world building both as a cultural form and as a political economy it demonstrates the limitations inherent in fandom and fan culture which is increasingly absorbed as a form of immaterial labor But at the same time the book also explores the productive ways in which fantastic storyworlds contain a radical energy that can give us new ways of thinking about politics popular culture and anticapitalism **Game of Thrones versus History** Brian A. Pavlac,2017-02-28 Since it first aired in 2011 Game of Thrones galloped up the ratings to become the most watched show in HBO s history It is no secret that creator George R R Martin was inspired by late 15th century Europe when writing A Song of Ice and Fire the sprawling saga on which the show is based Aside from the fantastical elements Game of Thrones really does mirror historic events and bloody battles of medieval times but how closely Game of Thrones versus History Written in Blood is a collection of thought

provoking essays by medieval historians who explore how the enormously popular HBO series and fantasy literature of George R R Martin are both informed by and differ significantly from real historical figures events beliefs and practices of the medieval world From a variety of perspectives the authors delve into Martin s plots characterizations and settings offering insights into whether his creations are historical possibilities or pure flights of fantasy Topics include the Wars of the Roses barbarian colonizers sieges and the nature of medieval warfare women and agency slavery celibate societies in Westeros myths and legends of medieval Europe and many more While life was certainly not a game during the Middle Ages Game of Thrones versus History Written in Blood reveals how a surprising number of otherworldly elements of George R R Martin s fantasy are rooted deeply in the all too real world of medieval Europe Find suggested readings recommended links and more from editor Brian Pavlac at [gameofthronesversushistory.com](http://gameofthronesversushistory.com)
