How To Make Chalkboard Paint Magnetic:

The Art of Comforting Val Walker, 2010-10-28 We live in an increasingly virtual world in which it can be tempting to skip making that true human connection with someone in pain. Even though our thoughts might be with them, we lack the confidence to reach out, worrying that we will say or do the wrong thing. In this practical step by step guide to what she calls the art of comforting, Val Walker draws on numerous interviews with Master Comforters to guide readers in gently and gracefully breaking through the walls that those who are suffering often erect around themselves. Interviewees include inspiring individuals such as Alicia Rasin, who as a victim's advocate for the city of Richmond, Virginia, has devoted her life to comforting grieving families devastated by homicide, gang violence, and other traumatic experiences; or Patricia Ellen, who as a grief counselor and outreach director at the Center for Grieving Children in Portland, Maine, appears on site to support and comfort children, staff, and parents when a school is facing a death, violence, or other crises. All of us will at one time or the other be called upon to offer warmth and support to another human being who is suffering; this book will show you how to answer the call with an open heart.

The Passive Programming Playbook Paula Willey, Andria L. Amaral, 2021-05-11 This book offers 101 passive programming ideas that are extendable, adaptable, customizable, and above all, stealable, so your passive programming never runs dry. Passive programming is a cheap, quick, fun way to make all library customers feel like part of the community. It can support reading initiatives, foster family engagement, encourage visit frequency, and coax interaction out of library lurkers while barely making a dent in your programming budget. Passive programming can be targeted at children, teens, adults, or seniors; used to augment existing programs and executed in places where staff-led programming can't reach. It can be light-footed, spontaneous, and easily deployed to reflect and respond to current news, media, library events, and even the weather. But even passive programming pros run out of ideas sometimes, and when that happens, they want a fresh, funny source of inspiration.
