How To Scan Report Cards:

America's Report Card John McNally, 2007-06-19 Having written a scathing essay about her disgust with the government's standardized testing process Jaimey skips her final weeks of high school while part time test scorer Charlie reads Jaimey's essay and recognizes her as a person needing help

Grading the Nation's Report Card National Research Council, Commission on Behavioral and Social Sciences and Education, Board on Testing and Assessment, Committee on the Evaluation of National and State Assessments of Educational Progress, 2000-04-23 The National Assessment of Educational Progress NAEP known as the nation's report card has chronicled students' academic achievement in America for over a quarter of a century. It has been a valued source of information about students' performance providing the best available trend data on the academic achievement of elementary middle and secondary school students in key subject areas. NAEP's prominence and the important need for stable and accurate measures of academic achievement call for evaluation of the program and an analysis of the extent to which its results are reasonable, valid and informative to the public. This volume of papers considers the use and application of NAEP. It provides technical background to the recently published book *Grading the Nation's Report Card: Evaluating NAEP and Transforming the Assessment of Educational Progress* NRC 1999 with papers on four key topics: NAEP's assessment development, content validity, design and use and more broadly the design of education indicator systems.

The Other Side of the Report Card Maurice J. Elias, Joseph J. Ferrito, Dominic C. Moceris, 2015-12-14 To better serve the whole child look at the whole report card. Although parents and teachers spend more time in conferences talking about behavior than they do about rubrics and test scores too many teachers are still guessing when it comes to using outdated behavior ratings and comments to describe the whole child. With this book you'll take report cards to the next level integrating social emotional learning and character development into any grading system. Resources include Guided exercises for analyzing existing report cards, Suggested report card designs, Tips on improving teacher parent communication, Case studies, Testimonials from teachers and students.

America's Environmental Report Card Harvey Blatt, 2006-08-11 A timely survey of the state of America's environment how we can take action to achieve a sustainable future. Americans today are increasingly concerned about the state of the environment. Polls show that a remarkable 63 percent would roll back recent tax cuts to finance environmental protection and that fully 95 percent want environmental education included in the public school curriculum. America's Environmental Report Card offers answers to some of our most pressing environmental questions providing a timely reminder of what we need to accomplish to achieve a sustainable environment. It lays out the scientific facts about water and air pollution, energy, global warming and the ozone layer in a lively conversational style enhanced by illustrations and charts, a course of action for protecting the environment. America's Environmental Report Card focuses on the environmental issues that polls show are most important to Americans today. It looks at water pollution and the safety of the water supply. 20 percent of Americans refuse to drink tap water at least partly because they doubt its safety.

the dangers of floods increased by the clearing of forests for farms and timber the leaching of garbage buried in landfills and pesticide runoff in irrigation waters from agriculture It examines the ways we generate energy and the resulting global warming air pollution much of the 2 500 gallons of air we inhale each day contains exhaust fumes lead and asbestos and ozone depletion and its relationship to skin cancer and offers a detailed account of nuclear energy production and the radioactive waste it generates Most important it outlines ways to deal with these problems workable and reasonable solutions that individuals industry and government can effect without unreasonable hardship solutions that map the course to a sustainable future
