Hrc Peer Review Manual:

Handbook of Culturally Responsive School Mental Health Caroline S. Clauss-Ehlers, Zewelanjani N. Serpell, Mark D. Weist, 2012-12-09 Schools across the United States as well as much of the world are experiencing widespread change. Students are more diverse ethnically, academically, and emotionally. More attention is being paid to abuse and neglect, violence, and bullying, and the growing inequities that contribute to student dropout. Within this changing landscape, cultural competence is imperative for school-based professionals, both ethically and as mandated by educational reform. The *Handbook of Culturally Responsive School Mental Health* explores the academic and behavioral challenges of an increasingly diverse school environment, offering workable, cost-effective solutions in an accessible, well-organized format. This timely volume updates the research on cultural competence in school-based interventions, describes innovative approaches to counseling and classroom life, and demonstrates how this knowledge is used in successful programs with children, adolescents, and their families. Populations covered range widely from African American and Asian American/Pacific Islander families to forced migrants and children who live on military bases. By addressing issues of training and policy as well as research and practice, contributors present a variety of topics that are salient, engaging, and applicable to contemporary experience, including: Adolescent ethnic/racial identity development; Culturally responsive school mental health in rural communities; Working with LGBT youth in school settings; Cultural competence in work with youth gangs; Culturally integrated substance abuse prevention and sex education programs; Promoting culturally competent school-based assessment; School-based behavioral health care in overseas military bases; Developmental, legal, and linguistic considerations in work with forced migrant children; Cultural considerations in work/family balance. The *Handbook of Culturally Responsive School Mental Health* is a must-have reference for researchers, scientists, practitioners, educational policymakers, and graduate students in child and school psychology, educational psychology, pediatrics, school nursing, social work, counseling therapy, teaching, and teacher education, and educational administration.

The Geopolitics of Shaming Rochelle Terman, 2023-10-31 A bold new perspective on the strategic logic of international human rights enforcement When a government violates the rights of its citizens the international community can respond by exerting moral pressure and urging reform Yet many of the most egregious violations appear to go unpunished In many cases shaming not only fails to induce compliance but also incites a backlash provoking resistance and worsening human rights practices The Geopolitics of Shaming presents a new theory on the strategic logic of international human rights enforcement revealing why and how states punish violations in other countries when shaming leads to an improvement in human rights conditions and when it backfires Drawing on a wide range of evidence from large scale cross national data to original survey experiments and detailed case studies Rochelle Terman shows how human rights shaming is a deeply political process one that operates in and through strategic relationships Arguing that preexisting geopolitical relationships condition both the causes and consequences of shaming in world politics she shows how adversaries are quick to condemn human rights abuses but often provoke a counterproductive response while friends and allies are the most effective shamers but can be reluctant to impose meaningful sanctions Upending conventional wisdom on the role of norms in world affairs The Geopolitics of Shaming demonstrates that politicization is integral to not a corruption of the success of the global human rights project
