EBOOK: Cost Management: Strategies for Business Decisions, International Edition Marc Wouters, Frank Selto, Ronald Hilton, Michael Maher, 2012-07-16 This book is an adaptation of the successful US text *Cost Management* by Hilton, Maher and Selto written specifically for an international audience. Major improvements include diverse and truly international examples of organizations. Examples used throughout the book are from all over the world and represent manufacturing, retail, not-for-profit and service firms in many different countries. Completely restructured and rewritten text. The book has been rewritten, restructured and also shortened significantly to align content closer with international courses. Integral use of spreadsheets. Spreadsheet software is used for explaining techniques and making applications more realistic. In-depth research. Summaries of international research studies that address important cost management issues have been updated and more references to recent research findings have been added. Intuitive explanation of accounting. The authors show directly how events impact the balance sheet and profit and loss account. *The Societal Relevance of Management Accounting* Sven Modell, 2017-10-02 This book explores the relevance of management accounting research and practice for a range of broader societal phenomena related to corporate governance and regulation, the creation and maintenance of markets and their concomitant social and political implications. It also explores the theoretical and methodological implications of pursuing a research agenda exploring such phenomena in greater detail. Containing a number of theoretical, methodological and empirical contributions by leading management accounting scholars, *The Societal Relevance of Management Accounting* seeks to advance novel research approaches that go beyond the traditional intra-organisational focus that has long dominated management accounting research. As such, it seeks to enhance the relevance of management accounting research for a broader range of stakeholders and interest groups in and around individual organisations. This book was originally published as a special issue of *Accounting and Business Research*.
