*Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems* Tshifhumulo, Rendani, Makhanikhe, Tshimangadzo Justice, 2021-10-08 Indigenous knowledge systems IKS are a combination of knowledge systems encompassing technology social economic and philosophical learning or educational legal and governance systems The lack of documentation of these systems presents a problem as the knowledge is fading away over time In response it is essential that policies and strategies are undertaken to ensure that these systems are protected and sustained for generations to come The Handbook of Research on Protecting and Managing Global Indigenous Knowledge Systems is a comprehensive reference source that works to preserve indigenous knowledge systems through research Focusing on key concepts such as tools of indigenous knowledge management and African indigenous symbols the book preserves and promotes indigenous knowledge through research and fills the void staff and students within the field of indigenous knowledge systems face with the current lack of research and resources This book is ideal for university students lecturers researchers academicians policymakers historians sociologists and anyone interested in the field of indigenous knowledge systems

**The Transformation of UN Conflict Management** Touko Piiparinen, 2009-09-10 The book provides a structural analysis of the transformation of UN conflict management from the failure to prevent genocide in Rwanda to Darfur and moves on to examine the development of Responsibility to Protect and the Peacebuilding Commission

[A Global Standard for Reporting Conflict](#) Jake Lynch, 2013-09-05 A Global Standard for Reporting Conflict constructs an argument from first principles to identify what constitutes good journalism It explores and synthesises key concepts from political and communication theory to delineate the role of journalism in public spheres And it shows how these concepts relate to ideas from peace research in the form of Peace Journalism Thinkers whose contributions are examined along the way include Michel Foucault Johan Galtung John Paul Lederach Edward Herman and Noam Chomsky Manuel Castells and Jurgen Habermas The book argues for a critical realist approach considering critiques of correspondence theories of representation to propose an innovative conceptualisation of journalistic epistemology in which social truths can be identified as the basis for the journalistic remit of factual reporting If the world cannot be accessed as it is then it can be assembled as agreed so long as consensus on important meanings is kept under constant review These propositions are tested by extensive fieldwork in four countries Australia the Philippines South Africa and Mexico

**Socio-Political Risk Management** Kurt J. Engemann, Cathryn F. Lavery, Jeanne M. Sheehan, 2023-04-27 Managing risk necessitates an understanding of both how to avoid detrimental outcomes and to reap beneficial results Organizations are regularly confronted with complex decisions involving risk and the impending consequences of the negative impact of its manifestation However the positive aspects of embracing risk should also be sufficiently evaluated to obtain a full assessment of opportunities Socio Political Risk Management Assessing and Managing Global Insecurity covers a range of viewpoints and issues which can be applied to

various organizational agency structures These perspectives examine how social and political risk can impact an agency and what recommendations are made to adapt mitigate and strengthen the organization against political risk Accessibility to personnel and agencies via social media the internet and public exposure compounded with political and social societal shifts have led many agencies in a constant spin to assuage and sustain viability and relevance publicly Socio Political Risk Management Assessing and Managing Global Insecurity serves the readers by raising awareness and the necessity to control social and political risks in their organizations This volume explores pathways for those in differing organizational structures to find common threads pertaining to social and political risks An important goal of the work is also to develop a framework for managing and exploiting risk that can be applied at the organizational level *Managing Food Insecurity Risk Analytical Framework and Application to Indonesia* OECD,2015-06-01 This publication develops a risk management tool to examine the robustness of policy responses to managing risks and uncertainty across a variety of different threats to food security and applies the framework to an Indonesia case study *Peacebuilding* Dennis J. D. Sandole,2013-04-24 Preventing violent conflicts and establishing comprehensive lasting peace in some of the world s most turbulent regions has become the new global imperative But to be effective peacebuilding must be a multilateral not a unilateral process Even for the world s sole surviving superpower promoting and sustaining durable peace requires communication co ordination co operation and collaboration between local national and international actors nongovernmental as well as governmental In this book Dennis Sandole explores the theory and practice of peacebuilding discussing the differences and similarities between core aspects of peace processes namely violent conflict prevention conflict management conflict settlement conflict resolution and conflict transformation Assuming no prior knowledge on the part of the student reader the volume distinguishes between proactive and reactive peacebuilding as strategies to pre empt or otherwise respond to global problems such as identity conflicts failing failed states terrorism pandemics poverty forced migrations climate change ecological degradation and their combined effects Drawing on a wide range of conflicts such as Bosnia Herzegovina Cambodia East Timor Haiti South Africa and Macedonia the book debates the lessons learned from past experiences of reactive as well as proactive peacebuilding plus the challenges which lie ahead for those striving to bring about sustainable peace security and stability to war torn or otherwise fragile regions of the globe *Climate Change and Energy Insecurity* Felix Dodds,Richard Sherman,2009-12 Climate change is now recognised as one of the greatest challenges facing the international community and when coupled with energy production and use the most significant contributor to climate change and the related security problems the double threat to international security and human development is of the highest order This wide ranging book brings together leading thinkers from academia government and civil society to examine and address the global insecurity and development challenges arising from the twin thrust of climate change and the energy supply crunch Part one considers energy It analyses the challenges of meeting future energy demands and the ongoing and future security related conflicts

over energy Coverage includes security and development concerns related to the oil and gas nuclear bio fuels and hydropower sectors ensuring energy access for all and addressing sustainable consumption and production in both developed and rapidly industrializing countries such as India China Brazil and South Africa Part two analyses how climate change contributes to global insecurity and presents a consolidated overview of the potential threats and challenges it poses to international peace and development Coverage includes future water scenarios including a focus on scarcity in the Middle East food security biodiversity loss land degradation the changing economics of climate change adaptation and the special case of small island states The final part lays out the potential avenues and mechanisms available to the international community to address and avert climate and energy instability via the multilateral framework under the United Nations It also addresses mechanisms for resource and knowledge transfer from industrialized to developing countries to ensure a low carbon energy transition by focusing on the rapid deployment of clean energy technologies and ways to tackle income and employment insecurity created by the transition away from traditional energy sources This book offers the most comprehensive international assessment of the challenges and solutions for tackling the global insecurity arising from climate change and energy provision and use It is essential reading for students researchers and professionals across international relations security climate change and the energy sectors      How to Run the World Parag Khanna, 2011-01-11

Here is a stunning and provocative guide to the future of international relations a system for managing global problems beyond the stalemates of business versus government East versus West rich versus poor democracy versus authoritarianism free markets versus state capitalism Written by the most esteemed and innovative adventurer scholar of his generation Parag Khanna's How to Run the World posits a chaotic modern era that resembles the Middle Ages with Asian empires Western militaries Middle Eastern sheikhdoms magnetic city states wealthy multinational corporations elite clans religious zealots tribal hordes and potent media seething in an ever more unpredictable and dangerous storm But just as that initial dark age ended with the Renaissance Khanna believes that our time can become a great and enlightened age as well only though if we harness our technology and connectedness to forge new networks among governments businesses and civic interest groups to tackle the crises of today and avert those of tomorrow With his trademark energy intellect and wit Khanna reveals how a new mega diplomacy consisting of coalitions among motivated technocrats influential executives super philanthropists cause mopolitan activists and everyday churchgoers can assemble the talent pool the money and deploy the resources to make the global economy fairer rebuild failed states combat terrorism promote good governance deliver food water health care and education to those in need and prevent environmental collapse With examples taken from the smartest capital cities most progressive boardrooms and frontline NGOs Khanna shows how mega diplomacy is more than an ad hoc approach to running a world where no one is in charge it is the playbook for creating a stable and self correcting world for future generations How to Run the World is the cutting edge manifesto for diplomacy in a borderless world      **Food Waste, Food Insecurity,**

**and the Globalization of Food Banks** Daniel N. Warshawsky, 2024-01-02 Food banks warehouses that collect and systematize surplus food have expanded into one of the largest mechanisms to redistribute food waste From their origins in North America in the 1960s food banks provide food to communities in approximately one hundred countries on six continents This book analyzes the development of food banks across the world and the limits of food charity as a means to reduce food insecurity and food waste Based on fifteen years of in depth fieldwork on four continents across North America Europe Asia and Africa this volume illustrates how and why food banks proliferate across the globe even though their impacts may be limited Rather than addressing the root causes of food insecurity and food waste governments and corporations promote food banks because it allows them to deflect attention away from their own institutional shortcomings The coronavirus crisis has only further underscored the fact that food bank systems are a patchwork of charities rather than a systematic network to reduce food insecurity and food waste Given the limited impacts and potential pitfalls of food banks in different contexts the author of this book suggests that we need to reformulate the role of food banks To start the mission of food banks needs to be clearer and more realistic as food surpluses cannot reduce food insecurity on a significant scale In addition food banks need to regain their institutional independence from the state and corporations and incorporate the knowledge and experiences of the food insecure in the daily operations of the food system Also given that food systems are designed differently across the Global South food banks may not be a good fit for development in some contexts If implemented these collective changes can contribute to a future where food banks play a smaller but more targeted role in food systems *Encyclopedia of Industrial and Organizational Psychology* Steven G. Rogelberg, 2007 Publisher description

**Crisis and Emergency Management** Ali Farazmand, 2014-03-25 More than 12 years have passed since the publication of the first edition of *Crisis and Emergency Management* During that time numerous disasters from 9 11 to massive earthquakes in Iran and China to the giant Asian Tsunami Hurricane Katrina and the Fukushima Tsunami and ensuing nuclear meltdown have changed the way we manage catastrophic events With contributions from leading experts this second edition features 40 new chapters that address recent worldwide crises and what we have learned from emergency responses to them See What's New in the Second Edition Up to date concepts theories and practices Analysis of recent disasters and their effect on emergency management Policy and managerial lessons Suggestions for capacity building in crisis and emergency management The book covers a wide range of international issues using critical empirical and quantitative analyses It discusses various approaches to topics such as resolving political tension and terrorism issues the potential use of biological weapons and the role of public relations in crisis The author offers insight into organizational and community resiliency development a surprise management theory in practice for upgrading the knowledge and skills in managing crises and governing emergencies and better and more effective organizational political social and managerial coordination in the processes He presents case studies that enhance and advance the future theory and practice of crisis and emergency

management while at the same time providing practical advice that can be put to use immediately Managing crises and governing emergencies in such an age of challenges demands a different kind of knowledge skills and attitudes that were not available yesterday This book gives you valuable information with applications at the macro micro organizational and interorganizational levels preparing you for emergency management in an increasingly globalized and uncertain world

Dryzek,Richard B. Norgaard,David Schlosberg,2011-08-18 Climate change presents perhaps the most profound challenge ever confronted by human society This volume is a definitive analysis drawing on the best thinking on questions of how climate change affects human systems and how societies can do and should respond Key topics covered include the history of the issues social and political reception of climate science the denial of that science by individuals and organized interests the nature of the social disruptions caused by climate change the economics of those disruptions and possible responses to them questions of human security and social justice obligations to future generations policy instruments for reducing greenhouse gas emissions and governance at local regional national international and global levels

**Ready to Lead?** Robin Niblett,2009 This report by Director of Chatham House Dr Robin Niblett draws on Chatham House s international expertise and contacts to offer an in depth analysis of President Obama administration s ambitions to renew US leadership in the world The report explores how the Obama administration can promote US global leadership at a time when many of the pillars of its international role have been weakened Looking at how the US will need to craft new ways of using its unique power and capacity to influence others the report s key conclusions are as follows America needs to change how it uses its power by sharing leadership where partners have as much or more to offer America needs to focus less on its opponents and more on supporting its friends and allies in Europe Latin America the Middle East and Asia America needs to place less emphasis on individual leaders and parties and more on governance and political processes **Near East and North Africa: Regional Overview of Food Insecurity 2016** Food and Agriculture Organization of the United

Nations,2018-05-29 Most countries in the Near East and North Africa saw a steady improvement in food security and nutrition up to the beginning of the decade Food production was rising and undernourishment and poverty were receding However the situation has deteriorated since 2012 largely driven by increasing conflicts and protracted crises as well as water scarcity and climate change Land Management and Food/Nutrition (In)Security In Mixed Farming Systems Ermias Teferi Demessie,Karuturi Venkata Suryabhagavan,Tibebu Kassawmar,Matebu Tadesse,Abebe Shiferaw Dakka,Gizaw Desta,Mirgissa Kaba,2025-03-21 The need to increase agricultural productivity due to the high demand of animal feeding and to provide food for growing global population has placed intense pressure on the agriculture landscape causing land degradation This issue has heavy consequences on smallholder farmers which constitute the majority of the global agricultural community making the access to sustainable nutrition ambitious for many communities Reducing land degradation understanding the process causes and effects and improving the management of natural resources became among the targets of Sustainable Development Goals Nowadays the implementation of context specific and innovative land management practices is a widely recognized solutions to ending land degradation Hurni et al 2010 Despite this it has never been implemented as widely as intended and little is known about their effectiveness in terms of restoring landscapes and boosting food and nutrition security The lack of long term observations and actions contributed to the limited knowledge available about the role of land management practices in food security To this end assessing and documenting the role and effectiveness of land management practices in food security is a relevant and critical research issue that requires appropriate attention This Research Topic aims to collect articles to address i best land management practices in effectively transforming degraded landscapes to food producing landscapes and ii documenting success and failure stories of land management practices in addressing food and nutrition security *Climate Change and the Crisis of Capitalism* Mark Pelling,David Manuel-Navarrete,M. R. Redclift,2012 Are established economic social and political practices capable of dealing with the combined contemporary crisis of climate change and economic disruption Will falling back on those wisdoms that have prefigured crises help identify ways forward or simply reconfigure risk so that it might reappear in another guise in the future This volume argues that the combination of global environmental change and global economic restructuring require a re thinking of the priorities processes and underlying values that shape contemporary development aspirations and policy If you re interested in getting to the bottom of why we are killing this beautiful planet of ours and finding out the ways in which we can fight this unfortunate tendency of our species then please have a go you might like it Manchester Climate Monthly
