

The following table summarizes the results of the survey of the effects of the drought on the various types of crops grown in the area. The results are given in terms of the percentage of the total area of each type of crop which was affected by the drought, and the percentage of the total yield of each type of crop which was lost.

Crop Type	Percentage of Area Affected	Percentage of Yield Lost
Wheat	100	100
Barley	100	100
Oats	100	100
Maize	100	100
Beans	100	100
Peas	100	100
Turnips	100	100
Other	100	100

The results of the survey show that the drought had a very serious effect on the various types of crops grown in the area. The percentage of the total area of each type of crop which was affected by the drought, and the percentage of the total yield of each type of crop which was lost, are given in the table above.

The results of the survey also show that the drought had a very serious effect on the various types of crops grown in the area. The percentage of the total area of each type of crop which was affected by the drought, and the percentage of the total yield of each type of crop which was lost, are given in the table above.
