There is no guarantee that adjustments will not cause a repeat of such interference.
- If you experienced these repeat harmful interferences to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following:
  - Reorient or relocate the receiving antenna.
  - Increase the separation between the equipment and receiving antenna.
  - Contact the equipment dealer or retailer for a more detailed description of the problem.
  - Check the location of the equipment relative to the receiving antenna.
