Inclusive Texts in

Elementary Classrooms Amy J. Heineke, Aimee Papola-Ellis, 2022 Learn how to put children's diverse and storied experiences at the center of the curriculum. Schools are more diverse than ever before, but the texts and materials that typify classroom curricula continue to prioritize so-called mainstream stories and perspectives. These canonical texts often exclude the nuanced identities and rich lived experiences of the very children sitting in today's classrooms. But kids thrive when they see themselves in texts and learn about the world around them by connecting with the experiences of others. Based on the authors' work with elementary school teachers over the last decade, this resource offers strategies for moving away from canonical texts. The authors present a four-part framework for selecting, using, and engaging students with texts that promote children's identity development, literacy engagement, and comprehension and learning across the content areas. The practical text provides guidance for setting learning goals that align with relevant standards and curricular directives, as well as classrooms examples, teaching strategies, and reflective questions. **Book Features:** An actionable way for teachers to move from theory to practice using what we know about culturally relevant practice and critical literacy to create instruction that enhances children's classroom experiences and learning. An inclusive and intersectional approach that supports all teachers in enhancing their classroom libraries and curricular resources for the benefit of all students. Specific ideas for texts and authors, as well as more generalizable themes and ideas that will guide future exploration and use of texts in classrooms. Tangible strategies and rich classrooms examples from 20 expert teachers spanning diverse elementary school settings. Reflective questions to help practitioners personalize the content to their own contexts.

The Write Genre Lori Jamison Rog, 2004 Discover a balanced approach to writing workshop that is organized around writing genres and uses specific writing skills to help students write creative, effective fiction and nonfiction.

Teaching Writing Primer Paul L. Thomas, 2005 Until a few decades ago, student writing stood as a distant third in the three R's. Since the late 1970s, however, students have been asked to write more, and teachers have been expected to teach writing more specifically. In spite of this mandate, however, little has been done to prepare teachers for this shift in the curriculum. This primer provides a brief history of the field, as well as an exploration of what we now know about teaching. Teachers entering the field, as well as seasoned veterans, will find how to foster student writers and to grow as writers themselves.

Getting to the Core of Writing: Essential Lessons for Every Fifth Grade Student Richard Gentry, Jan McNeel, 2012-06-01 Inspire students to develop as writers in the fifth-grade classroom with these engaging and creative writing lessons. This classroom-tested resource shows positive results in students' writing and simplifies the planning of writing instruction. It contains detailed information on how to establish and manage daily Writer's Workshop and includes consistent, structured instruction to encourage students to actively participate in the writing process. Specific lessons to help students develop the traits of quality writing are also included.
