Goodman, 1998-01-01 Statisticians know that the clean data sets that appear in textbook problems have little to do with real life industry data. To better prepare their students for all types of statistical careers, academic statisticians now strive to use data sets from real life statistical problems. This book contains 20 case studies that use actual data sets that have not been simplified for classroom use. Each case study is a collaboration between statisticians from academe and from business, industry, or government. **Statistics for Management and Economics** Gerald Keller, Brian Warrack, 1999 This is the abbreviated edition of *Statistics for Management and Economics*. The authors systematically teach students what statisticians do, solve problems focusing on the relationship between the type of problem, the type of data involved, the appropriate technique, and interpreting results. **Statistics for Management and Economics, Abbreviated** Gerald
