Penenberg, 2013-10-03 Do games hold the secret to better productivity If you've ever found yourself engrossed in Angry Birds Call of Duty or a plain old crossword puzzle when you should have been doing something more productive you know how easily games hold our attention Hardcore gamers have spent the equivalent of 5.93 million years playing World of Warcraft while the world collectively devotes about 5 million hours per day to Angry Birds A colossal waste of time Perhaps But what if we could tap into all the energy engagement and brainpower that people are already expending and use it for more creative and valuable pursuits Harnessing the power of games sounds like a New Age fantasy or at least a fad that's only for hip start-ups run by millennials in Silicon Valley But according to Adam L.
