Searching for Magic Bullets Lisa A Basara, Michael E Montagne, 1994-08-10 Searching for Magic Bullets reveals the quest of consumers health professionals and drug developers to find safer and faster methods of bringing new medications to the marketplace Authors Basara and Montagne explore the current drug development and approval processes their strengths and weaknesses and the mechanisms by which patients and organizations evade these processes Readers learn about the fundamentals of traditional and nontraditional drug discovery and development as they

occur in the U S as well as the views of consumers patients and health professionals Specific case studies of non traditional drug development and acquisition strategies are highlighted including AIDS medications orphan drugs and patient importation of medications Basara and Montagne establish the differences in both knowledge and opinions of health consumers and health professionals regarding drug development as well as how these differences often lead to frustration dissatisfaction and misappropriation of resources The authors pinpoint the need for consumers and patients to know much more about the discovery and development of medicines and for health professionals and students to understand patients concerns needs and beliefs including their reasons for considering alternative methods of drug development and acquisition Searching for Magic Bullets is a springboard from which consumers health professionals and students can discuss debate and resolve these issues and begin to develop more capable drug development and approval systems This groundbreaking new book enlightens health professionals about patients views regarding medication discovery and development and informs consumers and patients about the sometimes conflicting views of health professionals It is divided into three sections drug development and approval in the U S a case study of orphan drugs and risky and sometimes illegal ways in which consumers evade the traditional drug development and approval systems An Overview of the Chapters A Review of the Drug Development Process of the Pharmaceutical Industry Presents the steps that must be taken when researching and developing a new medication The Food and Drug Administration and the Drug Approval Process Describes the history and scope of the FDA the steps involved in acquiring drug approval and the various stages of clinical testing Orphan Drug Legislation A review of the Orphan Drug Act of 1983 and the changes that have recently been proposed by Congress The impact of the Act is highlighted through a description of products that have been made available since the legislation was enacted Issues of controversy are also highlighted Non traditional Methods of Drug Development The role of patients and consumers in drug development and evaluation is discussed with an emphasis on the perceived shortcomings of the formal system Patient Influence on Drug Development and Regulation The influence of patient advocacy groups and consumers is discussed in relation to the development and approval of orphan drugs the fast tracking of specific medications and the use of unapproved and alternative therapies Prescription Drug Importation Clarifies the current drug importation regulations as well as provides specific directions for patients wishing to receive such products or learn more about FDA importation laws The final chapter summarizes safe and rational techniques that empower consumers in their search for beneficial drug therapies Resources and strategies for obtaining and using information are provided as a reference for readers A glossary of terms acronyms and a directory of supplemental information sources strengthens the reader s understanding of the information presented Who Benefits From This Book Consumers and patients can use Searching for Magic Bullets as an accurate source of information about significant but often confusing medical issues The FDA and the way medications are developed are easily misunderstood while alternative therapies and medication sources are often believed to be the only options Patients

will learn the viewpoints of the pharmaceutical industry the government and their health care professionals the rationale for various steps in the drug development process the risks and benefits of participation in clinical trials how to obtain the highest quality care make informed health decisions and reduce health care costs and finally how to cope with a rare disease and or limited access to approved medications The result is an informed influential and active patient For health professionals this book reviews the steps of drug development and approval and provides explanations for drug development decisions drug approval time lag and patient frustrations misinterpretations and expectations It is critical for health professionals to understand the needs of patients and to determine how they can work with patients to find acceptable solutions The literature references and medical information sources are invaluable in this regard Pharmaceutical industry executives product managers clinical researchers and sales representatives will find a concise and timely examination of the ways in which medications are discovered developed marketed and used by patients Discussions of orphan drug development biotechnology products and patient issues may also provide new insights into these often misunderstood areas Pharmacy medical nursing and other students will find this book a consolidated reference source and guidebook for information about the primary issues surrounding drug development and the FDA approval process Patients knowledge of alternative medical therapies will only increase and health care curricula must include material that helps students understand patients perceptions of the medication development and approval systems as well as the importance of patients in health care decisionmaking The disadvantages of current drug development and approval systems are described with the hope that future health professionals can amend these processes and ultimately enhance patient care

America Anonymous Benoit Denizet-Lewis, 2009-01-06 America Anonymous is the unforgettable story of eight men and women from around the country including a grandmother a college student a bodybuilder and a housewife struggling with addictions For nearly three years acclaimed journalist Benoit Denizet Lewis immersed himself in their lives as they battled drug and alcohol abuse overeating and compulsive gambling and sexuality Alternating with their stories is Denizet Lewis s candid account of his own recovery from sexual addiction and his compelling examination of our culture of addiction where we obsessively search for new and innovative ways to escape the reality of the present moment and make ourselves feel better Addiction is arguably this country s biggest public health crisis triggering and exacerbating many of our most pressing social problems crime poverty skyrocketing health care costs and childhood abuse and neglect But while cancer and AIDS survivors have taken to the streets and to the halls of Congress demanding to be counted millions of addicts with successful long term recovery talk only to each other in the confines of anonymous Twelve Step meetings A notable exception is the addicted celebrity who often enters and exits rehab with great fanfare Through the riveting stories of Americans in various stages of recovery and relapse Denizet Lewis shines a spotlight on our most misunderstood health problem is addiction a brain disease A spiritual malady A moral failing and breaks through the shame and denial that still shape our cultural understanding of it and hamper our ability

to treat it Are Americans more addicted than people in other countries or does it just seem that way Can food or sex be as addictive as alcohol and drugs And will we ever be able to treat addiction with a pill These are just a few of the questions Denizet Lewis explores during his remarkable journey inside the lives of men and women struggling to become or stay sober As the addicts in this book stumble fall and try again to make a different and better life Denizet Lewis records their struggles and his own with honesty and empathy *Doin' Drugs* William H. James, Stephen L. Johnson, 2010-01-01 Throughout the African American community individuals and organizations ranging from churches to schools to drug treatment centers are fighting the widespread use of crack cocaine To put that fight in a larger cultural context Doin Drugs explores historical patterns of alcohol and drug use from pre slavery Africa to present day urban America William Henry James and Stephen Lloyd Johnson document the role of alcohol and other drugs in traditional African cultures among African slaves before the American Civil War and in contemporary African American society which has experienced the epidemics of marijuana heroin crack cocaine and gangs since the beginning of this century The authors zero in on the interplay of addiction and race to uncover the social and psychological factors that underlie addiction James and Johnson also highlight many culturally informed programs particularly those sponsored by African American churches that are successfully breaking the patterns of addiction The authors hope that the information in this book will be used to train a new generation of counselors ministers social workers nurses and physicians to be better prepared to face the epidemic of drug addiction in African American communities **Drugs, Crime, and the Justice System** ,1993-05 **Hearings Before and Special Reports Made by Committee on Armed Services of the House of Representatives on Subjects Affecting the Naval and Military Establishments** ,1971
