A philosophy paper consists in a critical analysis of a thesis and in a reasoned defense of some claims. If you advance a claim, your claim should be supported by argument. You must exhibit reasons for what you hold, not just voice your concern about a particular matter. Make your reasons explicit.
- **logical organization:** everything that you write must be justified: there should be a reason why you wrote what you wrote the way you did. Use only the sentences that you need to express your claims. In order to construct an argument, each step of your reasoning should be clear and in the right order. Each paragraph should follow the previous one logically,
