Civic Integration and Modern Citizenship

Jeanine Klaver,A. W. M. Odé,2009 In this study the experience in the Netherlands with civic integration policies will be explained in a detailed and systematic way As it stands the Netherlands presently has one of the most encompassing and coercive civic integration policies which is characterised by overseas civic integration testing a general obligation to pass a civic integration exam for all foreign nationals and the existence of an elaborate sanctioning regime Our main purpose is to understand the legitimacy of civic integration in this country particularly through analysing its main implications and effects from a broader perspective This perspective consists of an historical context a framework of modern citizenship rights and a cross border comparison of different national integration concepts The principal issues to be addressed are the political and social arguments which lay behind the introduction of civic integration policies and the extent to which these policies fit within academic notions of modern citizenship In addition the Dutch model of civic integration will be set against alternative national integration strategies as prevailing in some other immigrant receiving countries particularly Belgium Canada and the United States Publisher s description

Roodenburg,2022-11-14 Increasingly urban actors invoke human rights to address inequalities combat privatisation and

underline common aspirations or to protect vested private interests The potential and the pitfalls of these processes are

conditioned by the urban and deeply political These urban politics of human rights are at the heart of this book An

international line up of contributors with long term engagement in this field shed light on these politics in cities on four

continents and eight cities presenting a wealth of empirical detail and disciplinary theoreticalisation perspectives They

analyse the city society the urban actors involved and the mechanisms of human rights mobilisation In doing so they show

the commonalities in rights engagement in today s globalised and often deeply unequal cities characterised by urban law

private capital but also communities that rally around concepts as the right to the city Most importantly the chapters

highlight the conditions under which this mobilisation truly contributes to social justice be it concerning the simple right to presence cultural rights accessible housing or in times of COVID health care Urban Politics of Human Rights provides indispensable reading for anyone with a practical or theoretical interest in the complex deeply political and at times also truly promising interrelationship between human rights and the urban Creative Commons Attribution Non Commercial No Derivatives 4.0 license
