N. Svendsen,2021-11-12 *Near Human* takes us into the borders of human and animal life In the animal facility fragile piglets
substitute for humans who cannot be experimented on In the neonatal intensive care unit extremely premature infants
prompt questions about whether they are too fragile to save or if they survive whether they will face a life of severe disability
Drawing on ethnographic fieldwork carried out on farms in animal based experimental science labs and in hospitals Mette N
Svendsen shows that practices of substitution redirect the question of what it means to be human to what it takes to be
human The near humanness of preterm infants and research piglets becomes an avenue to unravel how neonatal life is
imagined how societal belonging is evaluated and how the Danish welfare state is forged This courageous multi sited and
multi species approach cracks open the complex ethical field of valuating life and making different kinds of pigs and different

noticed Several officers and gentlemen have afforded assistance in collecting materials and it is desired here to fully

recognise the obligation due to them for their valuable co operation The compilation has been prepared in the intervals of current duties and it is entirely due to the consideration shown the compiler by Brigadier General Schneider the Political Resident that any measure of success has been attained The work has been divided into six parts and it may not be amiss to say a few words regarding each About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works Herd Register American Jersey Cattle Club,1897
