Statistics on Water in Mexico ,2014 *Disaster Upon Disaster* Susanna M. Hoffma, Roberto E. Barrios, 2019-10-03 A consistent problem that confronts disaster reduction is the disjunction between academic and expert knowledge and policies and practices of agencies mandated to deal with the concern Although a great deal of knowledge has been acquired regarding many aspects of disasters such as driving factors risk construction complexity of resettlement and importance of peoples culture very little has become protocol and procedure Disaster Upon Disaster illuminates the numerous disjunctions between the suppositions realities agendas and executions in the field goes on to detail contingencies predicaments old and new plights and finally advances solutions toward greatly improved outcomes

Preventing Health and Environmental Risks in Latin America Ma. Luisa Marván, Esperanza López-Vázquez, 2018-04-17 This book addresses environmental and medical issues that could risk our well being our health or even cause death Some of the issues analysed could have negative consequences not only today but also for future generations if not prevented in time With regard to health risks the authors discuss several diseases that could be avoided if people perform or avoid certain behaviours and become accustomed to having healthier habits Concerning environmental hazards the authors discuss which social groups should be taken into

account based on preventive strategies used to avoid a particular disaster Both sections of the book on health and environmental issues have a subsection with chapters about risks and society No matter the risk related discipline the reader is familiar with when he ends reading the book it will become clear that risk analysis is the basis for prevention and that it cannot be addressed from a single discipline nor with a single methodology
