Refer to the figure at the right to identify each of the following.

- all planes that intersect plane STX
plane UTY , plane UTS , plane QTX , plane ZYX
- all segments that intersect \overline{QU} , \overline{UT} , \overline{TU} , \overline{QS} , \overline{QV}
- all segments that are parallel to \overline{XP} , \overline{TS}
- all segments that are skew to \overline{PW} , \overline{QS} , \overline{UT} , \overline{TS} ,
 \overline{UZ} , \overline{TY} , \overline{SX}

Classify the relationship between each pair of angles as *alternate interior*, *alternate exterior*, *corresponding*, or *consecutive interior* angles.

Timothy Masiko, 2022-04-21 This book examines the relationship between flexible regional economic integration in the East African Community EAC through its application of variable geometry and the establishment of the African Continental Free Trade Area AfCFTA as a continent wide form of integration It uses a historical political legal and economic analysis of the processes that led to the adoption of flexible regional integration in Africa with particular regard to the EAC This takes place in the inescapable context of pan Africanism showing how regional integration efforts in Africa are based on pan Africanist ideals and how an evolution of these ideals has led to an evolution in the goals of integration With growing awareness of the weaknesses and impracticality of consensus based decision making on a global level it makes the case for the pursuit of flexibility in multilateral trade drawing lessons from the experience of the AfCFTA and blocs in other regions This book is a historical evaluation of regional economic integration efforts in Africa and it follows the path of attempts to integrate the economies on the continent from colonial times to the birth of the AfCFTA While it is a study in law it relies heavily on politics economics and history to weave together a more complete theory of economic integration based on the African experience *Flexible Regional Economic Integration in Africa* was awarded the 2020 SIEL Hart Prize in International Economic Law
