Managing Coastal And Inland Waters:

Managing Coastal and Inland Waters Kenneth Ruddle, Arif Satria, 2010-09-08 Besides the erroneous assumption that tropical fisheries are open access the cases demonstrate that pre existing systems 1 are concerned with the community of fishers and ensuring community harmony and continuity 2 involve flexible multiple and overlapping rights adapted to changing needs and circumstances 3 that fisheries are just one component of a community resource assemblage and depend on both the good management of linked upstream ecosystems and risk management to ensure balanced nutritional resources of the community and 4 pre existing systems are greatly affected by a constellation of interacting external pressures

Conflicts over Natural Resources in the Global South Maarten Bavinck,Lorenzo Pellegrini,Erik Mostert,2014-01-15

Inhabitants of poor rural areas in the Global South heavily depend on natural resources in their immediate vicinity Conflicts over and exploitation of these resources whether it is water fish wood fuel minerals or land severely affect their livelihoods The contributors to this volume leave behind the polarised debate previously surround Small-Scale Fisheries in Europe: Status, Resilience and Governance José J. Pascual-Fernández,Cristina Pita,Maarten Bavinck,2020-04-28 This book offers a comprehensive account of the status and dynamics of people participating in the small scale fisheries SSF of Europe It covers the situation of SSF in 25 coastal countries thereby providing a portrait of almost every coastal country on the continent and analyzing the recent evolution of the sector Small scale fisheries are argued to be extremely important in Europe as they provide employment and welfare while increasing food sovereignty and maintaining communities in coastal areas The recent worldwide focus on SSF derives from their environmental sustainability which distinguishes many of their activities from those of large scale fisheries This book analyses the diversity of SSF and shows how fishing communities have sometimes developed successful governing models demonstrating social and economic resilience While the book emphasizes the strengths of SSF and the synergies that occur with other marine sectors it also presents cases of failure in which collective action and policy have actually contributed to a weakening of the sector In this context the book shows how governmental policies toward SSF vary considerably from country to country in a way that is not entirely consistent with European policies
