The Content Management Bible answers these key questions about the system readers might employ to control the expansion of information and organize targeting and distribution. What does a system that handles massive amounts of information look like and how can a single system produce a wide range of well-targeted custom publications from the same information base? How can a system be created that understands each piece of information and how do I transform content to fit the various distribution methods such as web, print, handhelds and others? What are the steps and processes you need to create such a system and how can this system serve an organization's overall business goals and future initiatives? **Managing Enterprise Content** Martin White, 2008.
