Province Building and the Federalization of immigration in Canada

Mireille Paquet, 2019-03-14 Most accounts of the provincial role in Canadian immigration focus on the experience of Quebec In Province Building and the Federalization of Immigration in Canada Mireille Paquet shows that between 1990 and 2010 all ten provinces became closely involved in immigrant selection and integration This considerable change to the Canadian model of immigration governance corresponds to a broader process of federalization of immigration by which both orders of government became active in the management of immigration While Canada maintains its overall positive approach to newcomers the provinces developed and continue to develop their own formal immigration strategies and implement various selections and integration policies This book argues that the process of federalization is largely the result of provincial mobilization In each province mobilization occurred through a modern iteration of province building this time focused on immigrants as resources for provincial economies and societies Advocating for a province centred analysis of federalism Province Building and the Federalization of Immigration in Canada provides key lessons to understanding the contemporary governance of immigration in Canada

Compassionate Migration and Regional Policy in the Americas

Steven W. Bender, William F. Arrocha, 2017-04-20 This book explores the contested notion of compassionate migration in its discourse and practice In the context of today's migration patterns within the Americas compassionate migration can play a fundamental role in responding to the hardships that many migrants suffer before during and after their journeys This volume explores the boundaries of compassion from legal political philosophical and interdisciplinary perspectives and supplies examples where state and non state actors engage in practices of compassion and humanity through formal and informal regimes Despite the lack of a concise and precise definition of the concept and practice of compassionate migration

all authors in this volume agree on the pressing need for more humane and compassionate treatment for those leaving their home country behind in search of a better life

Human Rights and Judicial Review in Australia and Canada Janina Boughey, 2017-06-15 It is commonly asserted that bills of rights have had a righting effect on the principles of judicial review of administrative action and have been a key driver of the modern expansion in judicial oversight of the executive arm of government A number of commentators have pointed to Australian administrative law as evidence for this righting hypothesis They have suggested that the fact that Australia is an outlier among common law jurisdictions in having neither a statutory nor a constitutional framework to expressly protect human rights explains why Australia alone continues to take an apparently formalist legalist and conservative approach to administrative law Other commentators and judges including a number in Canada have argued the opposite that bills of rights have the effect of stifling the development of the common law However for the most part all these claims remain just that there has been limited detailed analysis of the issue and no detailed comparative analysis of the veracity of the claims This book analyses in detail the interaction between administrative and human rights law in Australia and Canada arguing that both jurisdictions have reached remarkably similar positions regarding the balance between judicial and executive power and between broader fundamental principles including the rule of law parliamentary sovereignty and the separation of powers It will provide valuable reading for all those researching judicial review and human rights

Intergovernmental Relations on Immigrant Integration in Multi-Level States Ilke Adam,Eve Hepburn,2021-07-12 This book explores how governments in multi level states coordinate immigrant integration policies It sheds light on how the decentralization of immigrant integration to substate regions can lead to conflict or cooperation and how a variety of factors may shape different approaches to migrants Immigrant integration is an increasingly important policy area for governments However in multi level states immigrant integration is rarely the responsibility of the central government Instead it is often decentralized to substate regions which may have formulated their own unique approaches The way in which migrants are included into one part of a state may therefore be radically different from the experiences of migrants in another How do multi level states deal with potentially diverging approaches This book examines how governments coordinate on immigrant integration in multi level states Four multi level states form the backbone of the analysis two of which are federal Canada and Belgium and two that are decentralized Italy and Spain We find that intergovernmental dynamics on immigrant integration are shaped by a variety of factors ranging from party politics to constitutional power struggles This analysis contributes not only to our understanding of intergovernmental relations in multi level systems it also enhances our knowledge of the myriad ways in which different regions seek to include migrants into their societies economies and political systems The chapters in this book were originally published as a special issue of Regional and Federal Studies **The**
