Macroeconomics (Sol M) Nicolas Gregory Mankiw, 1997-01-01

Principles of Macroeconomics Asia-Pacific

Edition with Online Study Tool S 12 Months Robin Ellen Stonecash, Jan Libich, Joshua Gans, Stephen King, N. Gregory Mankiw, Martin Byford, 2017-09-15 The brief and student friendly approach of this book boils economics down to its essentials by considering what is truly important for students to learn in their first course in economics In keeping with the authors philosophy of showing students the power of economic tools and the importance of economic ideas this edition pays careful attention to regional and global policies and economic issues including the impacts of the ongoing global financial crisis inflation unemployment interest rates and monetary and fiscal policy Continuing global financial uncertainty and the current state of the Australian economy provide a constant supply of new material re evaluated models and policy changes and updates for the Principles of Macroeconomics text The book emphasises the material that students should and do find interesting about the study of the economy resulting in a focus on applications and policy and less on formal economic theory Principles of Macroeconomics 7e encourages students to make their own judgements by presenting both sides of the debate on five controversial issues facing policymakers the proper degree of policy activism in response to the business cycle the choice between rules and discretion in the conduct of monetary policy the desirability of reaching zero inflation the importance of balancing the government s budget and the need for tax reform to encourage saving

The Right Place

Arturo Bris, 2021-07-28 The Right Place explains why firms succeed in one country and fail in another irrespective of their inner drivers and suggests potential initiatives that governments can take to help the private sector create jobs and consequently make their countries more prosperous The competitiveness race is not unlike a cycling race If you want to ride fast you need three things a good bike to be in good shape and a smooth and fast road In a collaborative model you might say the business is the bicycle the business leader is the cyclist and the road is the government and the external environment The responsibility of a government is to design and build the best possible road It turns out that when the road is good good cyclists suddenly appear and want to race on it In this book competition and macroeconomics expert Arturo Bris provides the analysis of country competitive performance based on 30 years advising countries on this topic The typical mistakes that countries make are revealed and the pillars necessary in building a competitive economy economic performance as a necessary condition for prosperity government efficiency so the public sector can create the conditions for a productive economy business efficiency so companies can create jobs and infrastructure both tangible and intangible so businesses and individuals can operate efficiently With contemporary case studies throughout the book provides an illuminating read for politicians business leaders and students of macroeconomics
