 Reported in Public State Documents and Web Sites* Deb Albus, Martha L. Thurlow, Kristin Liu, 2002 Meeting the
 Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the
 federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and
 schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a
 sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these
 subject areas however constitute less than thirty percent of the teacher workforce in a district Comparatively little has been
 written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance
 by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular
 attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as
 alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and
 development psychometric considerations and validity challenges are covered from both a generic and a content specific
 perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to
 inform research based applications of educational measurement and assessment Edited by leading experts these books are
