Gibbs, Jr., 2008-09-22 A comprehensive collection of essays in multidisciplinary metaphor scholarship that has been written in response to the growing interest among scholars and students from a variety of disciplines such as linguistics philosophy anthropology music and psychology These essays explore the significance of metaphor in language thought culture and artistic expression There are five main themes of the book the roots of metaphor metaphor understanding metaphor in language and culture metaphor in reasoning and feeling and metaphor in non verbal expression Contributors come from a variety of academic disciplines including psychology linguistics philosophy cognitive science literature education music and law **Metaphor and Thought** Andrew Ortony, 1995

**Metaphor and Thought** Andrew Ortony, 1980 **The Ubiquity of Metaphor** Wolf Paprotté, René Dirven, 1985-01-01 This volume brings together a number of articles representative of the present outlook on the importance of metaphors and of the work done on metaphors in several domains of psycho linguistics The first part of the volume deals with metaphor and the system of language The second part offers papers on metaphor and language use In the third part psychological and psycholinguistic aspects of metaphor are discussed *Metaphor Wars* Raymond W. Gibbs, Jr., 2017-05-04 The study of metaphor is now firmly established as a central topic within cognitive science and the humanities We marvel at the creative dexterity of gifted speakers and writers for their special talents in both thinking about certain ideas in new ways and communicating these thoughts in vivid poetic forms Yet metaphors may not only be special communicative devices but a fundamental part of everyday cognition in the form of conceptual metaphors An enormous body of empirical evidence from cognitive linguistics and related disciplines has emerged detailing how conceptual metaphors underlie significant aspects of language thought cultural and expressive action Despite its influence and popularity there have been major criticisms of conceptual metaphor This book offers an evaluation of the arguments and empirical evidence for and against conceptual metaphors much of which scholars on both sides of the wars fail to properly acknowledge **The Moral Metaphor System** Ning Yu, 2022-06-27 This book investigates moral metaphors in English and Chinese applying conceptual metaphor theory to a comparative study of the linguistic manifestation of the moral metaphor system rooted in the domains of bodily and physical experience Ning Yu sheds light on the metaphorical nature of moral cognition and how it is systematically

manifested in language and explores the potential commonalities that define moral cognition in general as well as the differences that characterize distinct cultures The work investigates moral cognition at the cultural level as reflected in language based on linguistic evidence from both English and Chinese and to a limited extent multimodal evidence from the corresponding cultures The moral metaphor system is taken to consist of three major subsystems referred to as physical visual and spatial These subsystems are clusters of conceptual metaphors whose source concepts are from domains of embodied experiences in the physical world and which are formulated in contrastive categories with bipolar values for the target concepts of moral and immoral The study is characterized by two keywords system and systematicity The former refers to the fact that metaphors conceptual and linguistic are connected within networks and the latter to the need for those metaphors to be studied in such networks

**Metaphor and Metonymy revisited beyond the Contemporary Theory of Metaphor** Francisco González-García, María Sandra Peña Cervel, Lorena Pérez Hernández, 2013-10-30 The contributions in this volume go beyond the Contemporary Theory of Metaphor complementing it in a number of relevant ways Some of the papers argue for a more dynamic interdisciplinary approach to metaphor looking into it from semiotic psychological and socio cultural perspectives Other contributions focus on the crucial role played by metaphor and metonymy in meaning construction at a discourse textual level Finally the volume also includes proposals which revolve around the alleged universal nature of metaphorical mappings and their suitability to account for grammatical phenomena The contributions in this volume display an ample gamut of theoretical approaches pointing to the viability of taking a functional cognitive stance on the analysis of metaphor and metonymy in contrast to a purely cognitive one This book is structured into three major sections i the Contemporary Theory of Metaphor revisions and recent developments ii metaphor and or metonymy across different discourse genre types and iii the Contemporary Theory of Metaphor current applications Originally published in Review of Cognitive Linguistics 9 1 2011

**A Hermeneutic of Imagination** Knut M. Heim, 2025-08-26 To read the Bible well we need to employ our imagination This volume is the first book length study that takes the Bible s imaginative nature seriously It integrates insights from disciplines like neuroscience metaphor theory and cognition translation theory the affective sciences humor studies and the interdisciplinary study of imagination itself into the academic and theological study of the Bible Knut Heim and Jeffrey Oetter show that reading with imagination is a critical hermeneutic of engagement that fosters close deep lusciously savored and pleasurable readings of the biblical texts Bringing current scholarship from a variety of disciplines to bear on biblical interpretation this book explains that Scripture employs often subtle literary techniques including figurative language emotions and humor that require imagination to recognize and

interpret Imagination helps us develop genuinely biblical ideas that get us closer to the meaning intended by the Holy Spirit and the original authors resulting in more accurate interpretations when paired with traditional approaches Even textual aspects that have until now remained odd foreign and confusing can become occasions for imaginative engagement that reveal new meaning and significance A Hermeneutic of Imagination makes the case that reading with imagination is crucial for unlocking the Bible s full potential because it transforms academic study of the Bible into aesthetically inspiring intellectually stimulating emotionally rewarding theologically rich and spiritually transformative adventures of the mind that contribute to problem solving and human flourishing today

### **Metaphor, Morality, and the Spirit in Romans 8:1-17**

William E. W. Robinson, 2016-11-04 Engage compelling arguments that challenge prominent positions in Pauline studies In this innovative book William E W Robinson takes the reader on a journey through Romans 8 1 17 using Conceptual Metaphor Theory and Conceptual Integration Theory Robinson delineates the underlying cognitive metaphors their structure their function what they mean and how Paul s audiences then and now are able to comprehend their meaning He examines each metaphor in the light of relevant aspects of the Greco Roman world and Paul s Jewish background Robinson contends that Paul portrays the Spirit as the principal agent in the religious ethical life of believers At the same time his analysis demonstrates that the conceptual metaphors in Romans 8 1 17 convey the integral role of believers in ethical conduct In the process he addresses thorny theological issues such as whether Spirit and flesh signal an internal battle within believers or two conflicting ways of life Finally Robinson shows how this study is relevant to related Pauline passages and challenges scholars to incorporate these methods into their own investigation of biblical texts Features Sustained argument that sheds new light on how Paul communicates with his audiences Substantial contribution to current debates about central theological concepts Conceptual Metaphor Theory and Conceptual Integration Theory applied to the metaphors in Romans 8 1 17

Figurative Language and Thought Albert N. Katz Professor of Psychology University of Western Ontario, Cristina Cacciari Professor of Psychology University of Bologna, Santa Cruz Raymond W. Gibbs Jr. Professor of Psychology University of California, College Park Mark Turner Jr. Professor of English Language and Literature University of Maryland, 1998-08-12 Our understanding of the nature and processing of figurative language is central to several important issues in cognitive science including the relationship of language and thought how we process language and how we comprehend abstract meaning Over the past fifteen years traditional approaches to these issues have been challenged by experimental psychologists linguists and other cognitive scientists interested in the structures of the mind and the processes that operate on them In Figurative Language and Thought internationally recognized experts in the field of figurative language Albert Katz Mark Turner Raymond W Gibbs Jr and Cristina Cacciari provide a coherent and focused debate on the subject The book s authors discuss a variety of fundamental questions including What can figures of speech tell us about the structure of the conceptual system If and how should we distinguish the literal from the nonliteral in our theories of language and thought Are we

primarily figurative thinkers and consequently figurative language users or the other way around Why do we prefer to speak metaphorically in everyday conversation when literal options may be available for use Is metaphor the only vehicle through which we can understand abstract concepts What role do cultural and social factors play in our comprehension of figurative language These and related questions are raised and argued in an integrative look at the role of nonliteral language in cognition This volume a part of Counterpoints series will be thought provoking reading for a wide range of cognitive psychologists linguists and philosophers

*A Method for Linguistic Metaphor Identification* Gerard Steen, 2010 This book presents a complete method for the identification of metaphor in language at the level of word use It is based on extensive methodological and empirical corpus linguistic research in two languages English and Dutch The method is formulated as an explicit manual of instructions covering one chapter the method being a development and refinement of the popular MIP procedure presented by the Pragglejaz Group in 2007 The extended version is called MIPVU as it was developed at VU University Amsterdam Its application is demonstrated in five case studies addressing metaphor in English news texts conversations fiction and academic texts and Dutch news texts and conversations Two methodological chapters follow reporting a series of successful reliability tests and a series of post hoc troubleshooting exercises The final chapter presents a first empirical analysis of the findings and shows what this type of methodological attention can mean for research and theory

*Converging Evidence* Doris Schönefeld, 2011 The volume argues for the use of multi methodological strategies in linguistic research In its lead chapter in addition the thorny issue of phenomenological pluralism is explored in detail From a usage based perspective the individual chapters demonstrate methodological pluralism in the investigation of meaning language acquisition and discourse The chapters report on studies in which the use of corpus data is combined with other methodological tools e g experimentally elicited findings showing how introspection and the analysis of performance data go hand in hand to provide empirical support for researchers hypotheses Some of the authors inspire the discussion in usage based linguistics proposing innovative methods of analysis Others adopt such methods and combine them in original ways The cutting edge studies presented in this volume should be of great interest to scholars and students of cognitive and corpus linguistics who want to familiarize themselves with recent methodological advances and their applications in the field

*Slowing Metaphor Down* Gerard J. Steen, 2023-06-15 If thinking can be fast or slow metaphorical thinking can be fast and slow too But metaphorical thinking does not occur as often and in the ways that many metaphor scholars today think Slow metaphorical thinking does mean however that we can exert more control over metaphor than has previously been acknowledged We can even offer resistance to metaphor Deliberate Metaphor Theory DMT claims that there is an essential processing difference between non deliberate and deliberate metaphor use which can explain all this This book is the first full account of the DMT model for metaphor comprehension It presents explicit conceptualization and formal operationalization and is based on a well known cognitive psychological model for all utterance comprehension in discourse

The original three dimensional model of DMT is here refined into a four dimensional model which reveals new research questions and discoveries about the use of metaphor The book brings together numerous cognitive scientific insights into metaphor It has a high degree of interdisciplinary accessibility to all students of metaphor whether master students PhDs post docs or established academics

**Pictorial Metaphor in Advertising** Charles Forceville,2002-01-22 Over the past few decades research on metaphor has focused almost exclusively on its verbal and cognitive dimensions In *Pictorial Metaphor in Advertising* Charles Forceville argues that metaphor can also occur in pictures and draws on relevant studies from various disciplines to propose a model for the identification classification and analysis of pictorial metaphors By using insights taken from a range of linguistic artistic and cognitive perspectives for example interaction and relevance theory Forceville shows not only how metaphor can occur in pictures but also provides a framework within which these pictorial metaphors can be analyzed The theoretical insights are applied to thirty advertisements and billboards of British French German and Dutch origin Apart from substantiating the claim that it makes sense to talk about pictorial metaphors the detailed analyses of the advertisements suggest how metaphor theory can be employed as a tool in media studies Context in its various manifestations plays a key role in the analyses Furthermore the results of a small scale experiment shed light on where general agreement about the meaning of a pictorial metaphor can shade over into other more idiosyncratic but equally valid interpretations The final chapter sketches the ways in which the insights gained can be used for further research

**A Hybrid Theory of Metaphor** M. Tendahl,2009-08-27 A provoking new approach to how we understand metaphors thoroughly comparing and contrasting the claims made by relevance theorists and cognitive linguists The resulting hybrid theory shows the complementarity of many positions as well as the need and possibility of achieving a broader and more realistic theory of our understanding

*Cognitive Linguistics* Mario Brdar,Stefan Thomas Gries,2011 *Cognitive Linguistics* is not a unified theory of language but rather a set of flexible and mutually compatible theoretical frameworks This volume is of interest to scholars and students wishing to inform themselves about the state and possible future developments of *Cognitive Linguistics*
