The Form of Legislation and the Rule of Law Ronan Cormacain,2022-12-22 What does the rule of law mean in practical terms for the way that legislation is prepared drafted and presented It is a cornerstone of the UK legal order and requires certain things from the legal system such as that the law must be intelligible predictable and accessible This book examines what those requirements mean for the form that legislation must take Using the rule of law as the starting point the author uses deductive reasoning to determine what flows from this in terms of the form of legislation Each element of the rule of law is analysed to establish principles about the form that legislation ought to take and the book examines how each principle can be given concrete effect The originality lies in the nexus between the rule of law and the form of legislation Much has been written about the nature and content of the rule of law but relatively little has been devoted to legisprudence the theory and practice of legislation This book now draws these two subjects together in a detailed and innovative way

Fighting at the Legal Boundaries Kenneth Watkin,2016 Fighting at the Legal Boundaries offers a holistic approach towards the application of the various constitutive parts of international law The author focuses on the interaction between the applicable bodies of law by exploring whether their boundaries are improperly drawn or are being interpreted in too rigid a fashion Emphasis is placed on the disconnect that can occur between theory and practice regarding how these legal regimes are applied and interact with one another Through a number of case studies Fighting at the Legal Boundaries explores how the threat posed by insurgents terrorists and transnational criminal gangs often occurs not only at the point where these bodies of law interact but also in situations where there is significant overlap In this regard the exercise of the longstanding right of States to defend nationals including the conduct of operations such as hostage rescue can involve the application of human rights based law enforcement norms to counter threats transcending the conflict spectrum

Gendered Perspectives on Preventing Violent Extremism Sam Andrews,2022-09-16 The UK s Prevent strategy aims to dissuade vulnerable groups from supporting terrorism and women have been involved since its inception in 2006 Sam Andrews argues that women are still viewed within a traditional gendered framework as primarily peaceful and are mostly engaged as mothers enlisted by Prevent to watch over and guide their families and communities Drawing on interviews and case studies this book reveals how Prevent goes beyond simple counter terrorism messaging to fund a diverse array of projects from support for victims of domestic violence to parenting courses shaping wider engagement with women in society

Closing the Justice Gap for Adult and Child Sexual Assault Anne Cossins,2020-10-21 This book examines the justice gap and trial process for sexual assault against both adults and children in two jurisdictions England and Wales and New South Wales Australia Drawing on decades of research it investigates the reality of the policing and prosecution of sexual assault offences often seen as one of

the hardest crimes to prosecute across two similar jurisdictions Despite the introduction of the many reform options detailed in the book satisfactory outcomes for victims and the public are still difficult to obtain Cossins takes a new approach by examining the nature and effects of adversarialism on vulnerable witnesses jury decision making and the structures of power within the trial process to show how and at what points that process is weighted against complainants of sexual assault in order to make evidence based suggestions for reform She argues that this justice gap is a result of a moralistic adversarial culture which fosters myths and misconceptions about rape and child sexual assault thus requiring the prosecution to prove a complainant's moral worthiness She argues this culture can only be eliminated by a radical replacement of the adversarial system with a trauma informed system By reviewing the relevant psychological literature this book documents the triggers for re-traumatisation within an adversarial trial and discusses the reform measures that would be necessary to transform the sexual assault trial from one where the complainant's moral worthiness is on trial to a fully functioning trauma informed system It speaks to students and academics across subjects including law criminology gender studies and psychology and practitioners in law and victim services as well as policy makers

Journal of the Senate of the United States of America United States. Congress. Senate, 2016 **Leading the Police** Kim Stevenson, David Cox, Iain Channing, 2018-03-12

In 2015 the College of Policing published its Leadership Review with specific reference to the type of leadership required to ensure that the next generation of Chief Constables and their management approach will be fit for purpose Three key issues were highlighted as underpinning the effective leadership and management of contemporary policing hierarchy culture and consistency Yet these are not just relevant to modern policing having appeared as constant features implicitly and explicitly since the creation of the first provincial constabularies in 1835 This collection reviews the history of the UK Chief Constable reflecting on the shifts and continuities in police leadership style practice and performance over the past 180 years critiquing the factors affecting their operational management and how these impacted upon the organization and service delivery of their forces The individuality of Chief Constables significantly impacts on how national and local strategies are implemented shaping relationships with their respective communities and local authorities Importantly the book addresses not just the English experience but considers the role of Chief Constables in the whole of the United Kingdom highlighting the extent to which they could exercise autonomous authority over their force and populace The historical perspective adopted contextualises existing considerations of leadership in modern policing and the extensive timeframe and geographical reach beyond the experience of the Metropolitan force enables a direct engagement with contemporary debates It also offers a valuable addition to the existing literature contributing to the institutional memory of UK policing The contributors represent a range of disciplines including history law criminology and leadership studies and some also have practical policing experience
