done in times of change The pressures today on all cultural institutions are similar and so there is a new convergence of similar need and similar solutions This book is an acknowledgment that there are a wide variety of strategic organisational and technological responses to the retention of cultural objects whether they be books art records or other cultural objects It is illustrative of the power of good lateral thinking and planning by professionals of the power of international networks and of convergence in response to need The book will be an edited with a future perspective by Pentti Vattulainen and Steve O Connor who have had significant experience in this area internationally Resources in Education ,1998 *Monthly Catalog of United States Government Publications* ,1962 **Catalog of Copyright Entries.
