## **Mississippi Curriculum Test Second Edition Mct2:**

*Setting Performance Standards* Gregory J. Cizek, 2012-03-22 Setting standards of performance is a ubiquitous task in education licensure certification and credentialing It is found in elementary schooling the professions commercial applications and governmental and private organizations It is one of the most complex controversial and vexing issues facing specialists and policy makers today This second edition solidifies *Setting Performance Standards* as the only book providing a comprehensive profile of both the issues and the how to methods that define this thorny field Four chapters have been removed 11 chapters have been added 2 chapters have major revisions and all chapters have been updated Comprehensive Part I provides a conceptual overview of standard setting and its overarching issues Part II provides practical how to information on the newest standard setting methods Part III provides information and advice on persistent and potential challenges in standard setting Practical Part II the heart of the book reviews 16 of the newest standard setting methods far more than any other book Expertise Most of the well known authors from the 1st edition return with authors of equal stature contributing new chapters *Education Transformation* Ron Packard, 2013-11-19 *Education Transformation* authored by the leading expert in customized online education Ron Packard shows why technology is critical to the future of education and the future of our nation s children We can no longer afford to lag the benefits of technology must be harnessed for the benefit of students nationwide and around the globe It is an imperative One size does not fit all in education *Education Transformation* shows us how technology can be used to accommodate individual s needs rather than making each student force fit into the traditional classroom model which works for many but not for all Like so many other modern conveniences education can benefit from technological advancement and only technology can provide personalized instruction affordably *Education Transformation* has never been needed more than today It is the future of education and of our nation s children

Predicting Mississippi Curriculum Testing Program, Second Edition Performance Using the Northwest Evaluation Association Measures of Academic Progress Mary Cole, 2014 The purpose of this study was to determine if the Northwest Evaluation Association NWEA Measures of Academic Progress MAP reading and math assessments are a valid predictor of performance on the language arts and mathematics Mississippi Curriculum Test 2nd Edition MCT2 Additionally the researcher sought to determine whether student characteristics of gender ethnicity and economically disadvantaged status added statistically to the prediction of MCT2 scores The researcher used a correlational research design to answer the research questions that guide this study Regression analyses were performed using IBM Statistical Package for the Social Sciences SPSS version 22 Data were collected from a Southern Mississippi school district Scores from 676 6th grade students and 659 8th grade students were used in this study The results of simple linear regression indicate that NWEA MAP reading and mathematics assessments are a valid predictor of language arts and mathematics MCT2 scale scores for 6th and 8th grade students Results of multiple regression indicate that the linear combination of fall reading NWEA MAP RIT scores

spring reading NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 language arts scale scores for sixth grade students likewise the linear combination of fall reading NWEA MAP RIT scores spring reading NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 language arts scale scores for eighth grade students Similarly multiple regression analyses indicate that the linear combination of fall mathematics NWEA MAP RIT scores spring mathematics NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 mathematics scale scores for sixth grade students similarly the linear combination of fall mathematics NWEA MAP RIT scores spring mathematics NWEA MAP RIT scores student characteristics of gender ethnicity and economically disadvantaged status was significantly related to MCT2 mathematics scale scores for eighth grade students

**Funding Public Schools in the United States, Indian Country, and US Territories** Philip Westbrook, Eric A.

Houck, R. Craig Wood, David C. Thompson, 2023-05-01 The National Education Finance Academy has once again convened university faculty members state level administrators officials from state level chapters of the Association of School Business Officials and others to provide a single volume reference of school funding mechanisms for each of the states the District of Columbia Indian Country and the US territories This volume supplements the annual state of the state profiles produced by the National Education Finance Academy so that educators policymakers and researchers can have access to accurate and concise information on how K12 education functions are supported across multiple jurisdictions In addition each profile addresses state level efforts to provide education funding to support schools during the COVID 19 pandemic The second edition expands upon groundbreaking work in the first edition which for the first time reported comprehensively on the multiple jurisdictions and mechanisms impacting funding for Native American students by also reporting on policies and funding mechanisms for public schools in US Territories *The Effects of the Mississippi Curriculum Test, Second Edition: a Study on the Teacher Morale and Teacher Efficacy of Seventh and Eighth Grade Teachers* Mario Willis, 2014 Surveyed teachers responsible for preparing students to take the state mandated Mississippi Curriculum Test Second Edition MCT2 in 56 low performing middle schools and 57 high performing middle schools from 69 school districts in Mississippi during the 2012 2013 school year to determine if teacher morale and teacher efficacy can be predicted from attitudes toward the MCT2 and if there is a difference in teacher morale and teacher efficacy between teachers in low performing schools and high performing schools

**Using Mathematics-curriculum Based Measures to Predict Outcomes on the Mathematics Portion of the Mississippi Curriculum Test, Second Edition** Lenora Hogan-Samuel, 2012 The nation is challenged with improving the mathematics achievement of its students No Child Left Behind holds schools districts and states accountable for improving student achievement Because high stakes tests are given at the end of the school year schools are presented with the challenging task of developing or purchasing reliable assessments that provide accurate information describing how

well students understand the skills that will be measured on the end of the year high stakes tests Curriculum based measurements are used periodically to measure student progress toward meeting objectives during the school year The problem exists that schools are utilizing limited resources of time and money on a tool with little evidence of effectiveness in increasing mathematics scores on state assessments The purpose of this study was to determine the relationships between the scores of the three assessments of the mathematics Curriculum Based Measures M CBM and the scores from the mathematics MCT2 for sixth grade students A correlational research design is used to fulfill the purpose and test the three null hypotheses Hypothesis 1 for this study states that there is no relationship between the August 2009 M CBM scores and the May 2010 mathematics MCT2 scores Hypothesis 2 states that there is no relationship between the December 2009 M CBM scores and the May 2010 mathematics MCT2 scores Hypothesis 3 states that there is no relationship between the April 2010 M CBM scores and the May 2010 mathematics MCT2 scores To test the three null hypotheses correlation coefficients were computed using the Pearson r The results from all three hypotheses indicated that there were moderate positive correlations between scores of the M CBM and scores of the mathematics portion of the MCT2 with the strongest relationship being between the April M CBM and the mathematics MCT2 scores Further analysis was done to determine if the relationship between M CBM and mathematics MCT2 scores continued to exist when examined by mathematics MCT2 proficiency levels The results of this analysis indicated that relationships between M CBM and the mathematics portion of the MCT2 scores only existed for students scoring in the proficient range

The Effectiveness of the Response to Intervention Plan on Third Grade At-Risk Readers in a Rural School District Measured by the Mississippi Curriculum Test, Second Edition (MCT2) Estes-Lipford,2011 The purpose of this study was to examine the effectiveness of a response to intervention plan program on students reading achievement scores on the Mississippi Curriculum Test Second Edition MCT2 It explored gender differences in reading achievement to determine whether differences existed between males and females on the 2010 2011 MCT2 reading achievement tests

**The Educational Implications of DIBELS Oral Reading Fluency Assessments and Mississippi Curriculum Test 2 in Reading First Schools** Debra A. Dace,2010 The purpose of this study was to examine the predictive strength and decision making utility of oral reading fluency as it relates to reading comprehension The relationship of DIBELS ORF scores and the Language Arts LA Mississippi Curriculum Test 2 MCT2 scores was explored Specifically the research questions addressed were 1 Is there a significant relationship between third grade students Oral Reading Fluency score on DIBELS and Reading Achievement level on the third grade Mississippi Curriculum Test second edition MCT2 for language arts 2 Is there a significant relationship between third grade students obtained MCT2 proficiency levels of minimal basic proficient and advanced and DIBELS Oral Reading Fluency performance levels and 3 Is there a significant relationship between third grade students obtained MCT2 language arts scale score student achievement and other factors gender lunch status and attendance When DIBELS ORF scores and MCT2 Language

Arts scores were compared using the Pearson Product Moment Correlation a positive correlation existed for the data collected from 261 third grade students in the Mississippi delta region 2007 2008 and 2008 2009 cohorts A Two Way Chi Square revealed that students who performed at the low risk benchmark for DIBELS ORF also performed in the proficient and above ranges on the MCT2 LA Finally an Independent Samples T Test demonstrated that other factors such as gender and attendance were not significant in predicting MCT2 LA performance However lunch status showed some significance with one cohort of third grade students Nevertheless the findings from this study are in alignment with other states such that a high correlation between the state assessment MCT2 and DIBELS ORF exists The researcher found evidence that the use of DIBELS ORF as a formative assessment tool along with other variables may provide useful data to educators to identify students at risk of reading failure on the third grade end of year MCT2 LA The information provided from this research supports the contention that DIBELS ORF data may be used to inform intervention decisions in order to prevent future reading failure

**An Exploratory Analysis of School Attendance and Its Relationship to Student Achievement in the State of Mississippi** Washington Cole (IV),2017 Uses a cohort of 5th grade students in 2011 2012 and a similar cohort of students in 8th grade in 2014 2015 in the state of Mississippi drawing on student absences as well as scores on the Mississippi Curriculum Test Second Edition MCT2 in 2011 2012 and the Partnership for Assessment of Readiness for College Careers PARCC in 2014 2015 to determine the effect of student attendance on student achievement in Mississippi

**Examination of Mississippi Fourth and Eighth Grade Students' Reading Performance on the Mississippi Curriculum Test, Mississippi Curriculum Test 2, and National Assessment of Educational Progress** Shundria Summers Shaffer,2011 High stakes testing in reading demands that educators are providing the appropriate instruction to ensure student s success on state and national assessments Causal comparative research was conducted to examine the research questions 6 reading assessments were used for the study a the 2007 administration of the fourth and eighth grade NAEP b the 2006 2007 administration of the fourth and eighth grade MCT and c the 2007 2008 administration of the fourth and eighth grade MCT2 Data were drawn from the Mississippi Department of Education s website and from the National Assessment of Education Progress website District level data were available for both Mississippi Curriculum Tests and state level data were available for the NAEP Results revealed that there were statistically significant differences between achievement levels for fourth and eighth grade students on the MCT and MCT2 Comparison of the means for the two reading tests at the fourth and eighth grade level indicated that students scored statistically significant lower on the MCT2 than they did on the MCT Results also revealed that there were higher percentages of fourth grade students scoring minimal on NAEP than on the MCT and MCT2 In the basic category there were higher percentages of students scoring basic on the MCT2 and higher percentages of students scoring proficient and advanced on the MCT Relying on the targeted percentage of students at the achievement levels of proficient and advanced the percentages of students on the MCT and MCT2 exceeded NAEP

levels At the eighth grade level there were higher percentages of students scoring minimal and basic on NAEP and higher percentages of students scoring proficient and advanced on the MCT Relying on the targeted percentage of students at the achievement levels of proficient and advanced the percentages of students on the MCT and MCT2 exceeded NAEP levels Based on the above findings the MCT2 is more aligned to NAEP given that there were statistically significant differences between the MCT and MCT2 Further studies are needed in other subject areas to ensure state tests alignment with NAEP

### **The Impact MCT2 Has on an Elementary and Middle School Reading and Language Arts Classroom**

**Instruction in Mississippi** Sarah Elizabeth Campbell,2009 The purpose of this study was to understand what No Child Left Behind NCLB meant to teachers in Mississippi and to determine what impact this reform had on reading and language arts classroom instruction for teachers Qualitative research methods in the form of interview data and classroom observations were used to examine teachers perceptions of accountability and its effects on classroom instruction Teachers were asked to answer a set of research interview questions related to research questions The specific research questions used to explore teachers perceptions about accountability were 1 What are reading and language arts teachers perceptions of accountability 2 What are teachers perceptions of the influence of state testing on reading and language arts classroom instruction and 3 How do elementary and middle school teachers prepare students for end of year reading and language arts state test The researcher gathered qualitative data from five teachers with teaching experience ranging from 5 years to 30 years of teaching experience Each teacher who participated in this study was familiar with administering Mississippi Curriculum Test 2 MCT2 at the elementary and middle school level The results of this study indicated that teachers believe that the Mississippi accountability system is effective for improving the teaching and learning process but not for holding schools and districts accountable Each teacher in this study believed that test scores alone were not effective for addressing the familial and societal issues many schools face on a day to day basis and as a result using test scores to determine school quality was unrealistic Of the five teachers interviewed four reported engaging students in meaningful learning activities that put emphasis on the significance of language arts in daily life These teachers were also observed placing more emphasis on rubric based assessments classroom writing activities and student centered activities as a result of the 2006 Mississippi Language Arts Framework Revised and MCT2 Recommendations for further research include investigating whether the impact of teachers professional experience influences student achievement or whether the impact of the building principal s perceptions of the framework impact classroom instruction and teachers perceptions

### **Elementary Classroom Structure**

Heather Carpenter Linville,2021 This research is based on a causal comparative design which determined the effect classroom structure had on the Black males reading achievement The quantitative study investigated potential differences between self contained and departmentalized classroom organization on Black males grade 4 language scores on the Mississippi Curriculum Test second edition MCT2

The Impact of Afterschool Tutoring on Reading Achievement of

Elementary Students in a Mississippi Rural School Setting Sharone Sanders Lacy, 2011 The purpose of this study was to determine what impact a No Child Left Behind NCLB related afterschool tutoring program had on reading achievement of elementary students in a Mississippi rural school setting The research questions that guided this study were 1 Is there a significant difference between the 2008 and 2009 Mississippi Curriculum Test 2nd Edition MCT2 language arts scores of elementary students who participated in a NCLB related afterschool tutoring program in a Mississippi rural school setting and 2 Is there a significant difference between the 2009 MCT2 language arts scores of elementary students who participated in a NCLB related afterschool tutoring program and those students who did not participate in a NCLB related afterschool tutoring program in a Mississippi rural school setting while controlling for 2008 MCT2 language arts scores To address the research questions a causal comparative research design was used The researcher collected the state s language arts scores of 2008 and 2009 for elementary students who participated in the afterschool tutoring program and performed a paired sample t test to answer research question one To answer research question two the researcher collected the state s language arts scores of 2008 and 2009 for elementary students who participated in the afterschool tutoring program and for eligible students who did not participate in the afterschool tutoring program and performed a univariate analysis of variance The results of this study were twofold The scores of the participants improved Results of the paired sample t test analysis indicated a significant difference in the scores between the 2008 and 2009 MCT2 language arts On the other hand results of the univariate analysis of variance indicated that there was no significant difference between the 2009 MCT2 language arts scores of participants and nonparticipants Recommendations for further research include conducting an experimental research design on afterschool tutoring and reading achievement in a rural school s analyzing parental involvement while conducting research on afterschool tutoring and reading achievement in rural schools and observing and comparing a regular classroom setting while conducting research on afterschool tutoring and reading achievement in rural schools

### **Teachers' Attitudes and Perceptions of Looping and the Effect of Looping on Students' Academic Achievement**

Vera Williams-Wright, 2013 The results of student scores on the 2010 and 2011 Mississippi Curriculum Test Second Edition MCT2 from six Mississippi elementary schools in grades three through five were analyzed to determine the impact of looping on academic achievement in mathematics and language arts The teachers were surveyed to determine their perceptions of looping in regard to instructional effectiveness relationships and parental involvement Mississippi Academic Assessment Program (MAAP) Test Prep, 2nd Grade MATH Student Edition, Volume 2 Gowri Vemuri, 2025-01-08 *MCT English 2, Practice Test Items* Mississippi. Department of Education, 2001 **A Study of the Relationship Between Reading**

**Instruction and Male Students' Reading Scores in Single-gender Elementary Classrooms** Chrystal Michelle Hodges, 2011 The purpose of this study was to analyze the impact of single gender grouping on the reading performance of fourth grade male students and explore the levels of use of research based reading strategies for their influence on reading

achievement of male students in single gender and mixed gender class settings The study population consisted of 195 student participants from 4 different schools in one mid South school district and 9 teacher participants of these students The control group consisted of 98 students from two of the four schools in the study Data was collected using the results from the Mississippi Curriculum Test Second Edition MCT2 assessment reading mean scores the Teacher Questionnaire and System to Enhance Education Performance STEEP test scores The data was analyzed at the .05 level of significance using Levene's Test for Equality of Variances Independent t test of Means frequency distributions and clustered bar charts Results of the data analysis showed that there were significant differences in the mean reading performance level scores between fourth grade male students in single gender and mixed gender classes The frequency use of general reading strategies the literature based approach and the technology based approach was greater with teachers of single gender classes The frequency use of the basal based approach and the language based approach was equal among teachers in both class settings The majority of the teachers surveyed used strategies to assess students progress in reading at least twice a week or more Hands on activities choice in text selection and literature circles were three major themes that emerged from teacher narratives on one delivery method observed to be effective with boys
