Korean Endgame Selig S. Harrison, 2009-02-10 Nearly half a century after the fighting stopped the 1953 Armistice has yet to be replaced with a peace treaty formally ending the Korean War While Russia and China withdrew the last of their forces in 1958 the United States maintains 37 000 troops in South Korea and is pledged to defend it with nuclear weapons In Korean Endgame Selig Harrison mounts the first authoritative challenge to this long standing U S policy Harrison shows why North Korea is not as many policymakers expect about to collapse And he explains why existing U S policies hamper North South reconciliation and reunification Assessing North Korean capabilities and the motivations that have led to its forward deployments he spells out the arms control concessions by North Korea South Korea and the United States necessary to ease the dangers of confrontation centering on reciprocal U S force redeployments and U S withdrawals in return for North Korean pullbacks from the thirty eighth parallel Similarly he proposes specific trade offs to forestall the North s development of nuclear weapons and missile delivery systems calling for the withdrawal of the U S nuclear umbrella in conjunction with agreements to denuclearize Korea embracing China Russia and Japan The long term goal of U S policy he argues should be the full disengagement of U S combat forces from Korea as part of regional agreements insulating the peninsula from all foreign conventional and nuclear forces A veteran journalist with decades of extensive firsthand knowledge of North Korea and long standing contacts with leaders in Washington Seoul and Pyongyang Harrison is perfectly placed to make these arguments Throughout he supports his analysis with revealing accounts of conversations with North Korean South Korean and U S leaders over thirty five years Combining probing scholarship with a seasoned reporter s on the ground experience and insights he has given us the definitive book on U S policy in Korea past present and future **Endgame in South**
