Critical praise for Steve Nison's first book destined to become the classic reference on the subject: Charles LeBeau and David Lucas, *Technical Trader's Bulletin*. I believe Steve Nison's new candlestick book is destined to become one of the truly great books for this time period. Whether you trade futures, commodities, or equities, day trade or hold positions overnight, this book is a must.

Lee Siegfried, *Investor's Library*. Data Broadcasting Corp. It is hard to be too effusive about the quality of Nison's work; this is clearly one of the best investment books ever written in terms of covering a subject with pedagogical ability and writing skill. The organization is impeccable; reading it was a pleasure.
