Understanding Behaviour 14+ Vicky Duckworth, Karen Flanagan, Karen McCormack, Jonathan Tummons, 2012-10-16 Dealing with challenging behaviour is a fundamental concern of all trainee teachers and even more so for those who are training to work with pupils age 14 whether within a secondary school context or post compulsory college context This book will equip the practitioner with the skills required to implement change within problematic relationships and environments and to explore a range of possible reasons as to why students behave in the way they do Understanding Behaviour 14 challenges existing paradigms in order to break down barriers substituting and encouraging professional responsibility for promoting positive relationships rather than the passive acceptance of unwanted behaviors or a reliance on a culture of blame Key features of the book include A brief and effective solution focused approach Challenging existing paradigms Consideration of the process of reflection and evaluation Effective approaches to providing an inclusive classroom This essentially moves away from thinking about difficult or bad students and towards thinking about difficult relationships or environments This process of change allows the practitioner to reflect in a far more constructive and objective manner also allowing the practitioner to acknowledge their own feelings in this process The effective management of the behaviour of 14 learners has become a key issue across the school and lifelong learning sectors The new Ofsted Schools Common Inspection Framework and Initial Teacher Education Framework have behaviour management as a central focus The raising of the

participation age RPA will require teachers to manage the learning of a wider range of students in an increasingly broader spectrum of institutional contexts Understanding Behaviour 14 will be a welcome resource for these teachers whether more or less experienced The authors recognize that there are no quick fixes to deal with what are extremely complicated relations and situations and avoid a tips for teachers approach to behaviour management They emphasise the importance of understanding why students behave the way they do and with an excellent blend of theory and practice encourage teachers to use reflection and to take solution rather than problem based approaches to managing behaviour The text is highly accessible and issues are practically grounded in real life case studies Andy Armitage is Head of The Department of Post Compulsory Education Canterbury Christ Church University UK He recently completed a year s secondment to Ofsted as an inspector of Initial Teacher Education Respondent Centred Surveys Laura Wilson, Emma Dickinson, 2021-11-03 Achieve your survey goals by empowering your survey respondents Too often surveys are designed for the analyst rather than the respondent This book challenges the status quo by putting respondents needs at the heart of survey development It encourages you to stop listen and then design to improve response rates and collect high quality data Drawing on their experience at the UK Office for National Statistics the authors Show you how to design better surveys by combining social research and user experience best practice Equip you with the tools to design inclusive and accessible surveys Enable you to overcome practical research problems including managing participant recruitment and working to any budget Provide links to helpful web material and further reading as part of the book s online resources Promoting a new way to conceptualise and conduct survey design this book expands your theoretical thinking and shows you step by step how to put it into practice
