Official organ of the book trade of the United Kingdom      Bookseller and the Stationery Trades' Journal ,1895      Ethics in the University James G. Speight,2016-08-26 It is the continuous reports of unethical behavior in the form of data manipulation cheating plagiarism and other forms of unacceptable behavior that draw attention to the issues of misconduct The causes of misconduct are manifold whether it is the need to advance in a chosen discipline or to compete successfully for and obtain research funding Disappointingly individuals who are oriented to any form of dishonesty are individuals who had previously displayed little or no consideration for the feelings of others and are therefore more interested in themselves at the expense of the students and others recognizing them by any means necessary This ground breaking and honest examination of ethics in the university setting is unabashed in its descriptions of misconduct in the academic world The text is well furnished with numerous citations that point to academic misconduct and the final chapter deals with the means by which misconduct can be mitigated a strong reminder to everyone in the academic community that above board conduct must be part of our overall message of learning and part of the whole point of education in the first place A must have for academics and non academics alike this text is the second in a series of books on ethics by James G Speight and it is useful to anyone in any industry who is interested in ethical behavior and how to navigate the sometimes murky depths of our professional lives      Sessional Papers Great Britain. Library,1976      **Engineering** ,1868      **The State of the Black Family** Robert Cherry,2023-03-07 Too many Black Americans live in neighborhoods that are filled with gun violence dysfunctional and abusive families and children with deficient academic and behavioral skills Instead of engaging in an open minded search for solutions too many pundits and politicians are content to point their fingers at systemic racism while dismissing individual effort and traditional measures of merit as part and parcel of a system that is irredeemably broken In *The State of the Black Family* the economist Robert Cherry presents a blueprint for a robust set of policies that can break the cycle of intergenerational poverty and move these families forward by providing direct family support practical educational approaches housing policies to reinvigorate neighborhoods and on ramps to higher paying jobs an approach that enjoyed a broad consensus before leftwing social justice themes hijacked the conversation      *An Age of Accountability* John L. Rury,2023-10-13 *An Age of Accountability* highlights the role of test based accountability as a policy framework in American education from 1970 to 2020 For more than half a century the quest to hold schools and educators accountable for academic achievement has relied almost exclusively on standardized assessment The theory of change embedded in almost all test based accountability programs held that assessment with stipulated consequences could lead to major improvements in schools This was accomplished politically by proclaiming lofty goals of attaining universal proficiency and closing achievement gaps which repeatedly failed to materialize But even after very clear disappointments no other policy framework has emerged to challenge its hegemony The American public today has little confidence in institutions to improve the quality of goods and services they provide especially in the public sector As a consequence many Americans continue to believe that accountability remains a vital necessity even if educators and policy scholars disagree      **Catalogues and Indexes of British Government Publications, 1920-1970: Annual catalogues of British government publications 1961-1970** Great Britain.
