balance between the twin demands of teaching and research of regional versus national status combined with continual shortages of funds created occasional obstacles The problem of two sets of trustees one for the university and another for the Duke Endowment loomed largest of all As Few himself said during these early years Duke successfully embarked on a long journey for it was not until after World War II that Duke University consolidated the growth begun in the inter war years An important contribution to the history of Southern higher education as well as to Duke University this book will be of great interest to historians alumni and friends of Duke University alike **Bedingfeld papers, &c.
