State Feedback Control and Kalman Filtering with MATLAB/Simulink Tutorials Liuping Wang, Robin Ping Guan, 2022-10-07 STATE FEEDBACK CONTROL AND KALMAN FILTERING WITH MATLAB SIMULINK TUTORIALS Discover the control engineering skills for state space control system design, simulation, and implementation. State space control system design is one of the core courses covered in engineering programs around the world. Applications of control engineering include things like autonomous vehicles, renewable energy, unmanned aerial vehicles, electrical machine control, and robotics, and as a result, the field may be considered cutting edge. The majority of textbooks on the subject, however, lack the key link between the theory and the applications of design methodology. *State Feedback Control and Kalman Filtering with MATLAB Simulink Tutorials* provides a unique perspective by linking state space control systems to engineering applications. The book comprehensively delivers introductory topics in state space control systems through to advanced topics like sensor fusion and repetitive control systems. More, it explores beyond traditional approaches in state space control by having a heavy focus on important issues associated with control systems like disturbance rejection, reference tracking, control signal constraint, sensor fusion, and more. The text sequentially presents continuous time and discrete time state space control systems, Kalman filter, and its applications in sensor fusion. *State Feedback Control and Kalman Filtering with MATLAB Simulink Tutorials* readers will also find MATLAB and Simulink tutorials in a step-by-step manner that enable the reader to master the control engineering skills for state space control system design and Kalman filter simulation and implementation. An accompanying website that includes MATLAB code, high-end illustrations, and tables throughout the text to illustrate important points. Written by experts in the field of process control and state space control systems, *State Feedback Control and Kalman Filtering with MATLAB Simulink Tutorials* is an ideal resource for students from advanced undergraduate students to postgraduates, as well as industrial researchers and engineers in electrical, mechanical, chemical, and aerospace engineering.
