Park Chung Hee and Modern Korea Carter J. Eckert, 2016-11-07 This first volume in a two part study examines the origins of South Korean authoritarianism as personified by the militant political leader For South Koreans the twenty years from the early 1960s to late 1970s were the best and worst of times a period of unprecedented economic growth and of political oppression that deepened as prosperity spread In this masterly account Carter J Eckert finds the roots of South Korea s dramatic socioeconomic transformation in the country s long history of militarization a history personified in South Korea s paramount leader Park Chung Hee In Park Chung Hee and Modern Korea Eckert reveals how the foundations of Park s leadership were established during the period of Japanese occupation As a cadet in the Manchurian Military Academy Park and his fellow officers absorbed the Imperial Japanese Army s ethos of victory at all costs and absolute obedience to authority When Park seized power in 1961 he applied this ethos to the project of Korean modernization Korean society under Park exuded a distinctively martial character Eckert shows Its hallmarks included the belief that the army should intervene in politics in times of crisis that a central authority should manage the country s economic system and that the state should maintain a strong disciplinary presence in society reserving the right to use violence to maintain order A milestone in the literature of modern East Asia Bruce Cumings author of Korea s Place in the Sun

The Invention of Martial Arts Paul Bowman, 2020-12-17 Through popular movies starring Bruce Lee and songs like the disco hit Kung Fu Fighting martial arts have found a central place in the Western cultural imagination But what would martial arts be without the explosion of media texts and images that brought it to a wide audience in the late 1960s and early 1970s In this examination of the media history of what we now call martial arts author Paul Bowman makes the bold case that the phenomenon of martial arts is chiefly an invention of media representations Rather than passively taking up a preexisting history of martial arts practices some of which of course predated the martial arts boom in popular culture media images and narratives actively constructed martial arts Grounded in a historical survey of the British media history of

martial arts such as Bartitsu jujutsu judo karate tai chi and MMA across a range of media this book thoroughly recasts our understanding of the history of martial arts By interweaving theories of key thinkers on historiography such as Foucault and Hobsbawm and Said s ideas on Orientalism with analyses of both mainstream and marginal media texts Bowman arrives at the surprising insight that media representations created martial arts rather than the other way around In this way he not only deepens our understanding of martial arts but also demonstrates the productive power of media discourses

S. McIntosh,2014-11-17 Though humans have practiced martial arts for thousands of years many scientists believe that fighting for recreation without the intent to hurt began with chimpanzees far before humans made it into a sport Today martial arts are popular all over the world with organized competitions and a multitude of differing styles Be it Korean taekwondo or Brazilian jiu jitsu martial arts have become a staple of sports culture Learn about the history of martial arts from their pre human beginnings to today s Olympic level competition Explore the most common injuries that martial artists sustain including treatments and prevention strategies In addition find out about How martial artists maintain their health and fitness How stretching before athletic activity can prevent injury What kinds of training martial artists must undergo in order to be competitive The importance of good nutrition The dangers of performance enhancing drugs **Operator's, Organizational, Direct Support, and General Support Maintenance Manual** ,1990 *Unleashing Manhood in the Cage* Christian A. Vaccaro,Melissa L. Swauger,2015-11-11 *Unleashing Manhood in the Cage* Masculinity and Mixed Martial Arts addresses the question Why do mixed martial arts participants endure grueling workouts and suffer through injury with little or no pay just to compete The answer is because the participants enjoy a form of idolization from their supporters each other and culture more generally which is linked to masculinity In fact MMA organizers from the very beginning purposefully created elements of the sport that are linked to dominant narratives about manhood In this context men don thin open fingered gloves lock themselves in a caged enclosure and slug it out in a fight with few rules to see who comes out on top This all occurs while ring girls in high heels and skin tight shirts and shorts stride around outside the cage holding signs and peddling t shirts The sum of these elements is the creation of a type of a publicly accessible and consumable form of masculinity The sport of mixed martial arts is a rich and intriguing space where the construction of gender can be explored through a sociological and ethnographic lens
