

Expository Essay Structure

Introduction	Introduce the essay with a hook that demonstrates relevance of the essay to the reader. Introduce the topic and outline your essay structure
	Thesis Statement: Don't forget to state your thesis statement in the introduction. For an expository essay, it should be a statement of fact not an argument.
Body Paragraphs	<p>Each body paragraph should contribute one new key idea that adds depth to your explanations of the overarching topic, helping readers to develop a deeper understanding on the topic. Typical body paragraph structure is as follows:</p> <ul style="list-style-type: none">• Topic sentence: Introduce what topic or point the paragraph will cover. The paragraph should only address one key point and not go off-topic.• Elaboration: Elaborate on the topic sentence by adding detail and information about this argument.• Support: Include a fact, quote, or important piece of information about the topic that demonstrates you have conducted research into the topic.• Summary: Add one sentence that will summarize this paragraph topic and link it back to the overall thesis statement.• Transition: Transition to the next paragraph.
Conclusion	Close the loop by returning to a statement you made in the introduction. Show what your final position is. Explain who should be interested in your findings. End by noting in one final, engaging sentence why this topic is of such importance.

Origin and Significance of the Frankfurt School (RLE Social Theory) Phil Slater, 2020-07-26 The term Frankfurt School is used widely but sometimes loosely to describe both a group of intellectuals and a specific social theory Focusing on the formative and most radical years of the Frankfurt School during the 1930s this study concentrates on the Frankfurt School s most original contributions made to the work on a critical theory of society by the philosophers Max Horkheimer and Herbert Marcuse the psychologist Erich Fromm and the aesthetician Theodor W Adorno Phil Slater traces the extent and ultimate limits of the Frankfurt School s professed relation to the Marxian critique of political economy In considering the extent of the relation to revolutionary praxis he discusses the socio economic and political history of Weimar Germany in its descent into fascism and considers the work of such people as Karl Korsch Wilhelm Reich Walter Benjamin and Bertolt Brecht which directs a great deal of critical light on the Frankfurt School While pinpointing the ultimate limitations of the Frankfurt School s frame of reference Phil

Slater also looks at the role their work played largely against their wishes in the emergence of the student anti authoritarian movement in the 1960s He shows that in particular the analysis of psychic and cultural manipulation was central to the young rebels theoretical armour but that even here the lack of economic class analysis seriously restricts the critical edge of the Frankfurt School s theory His conclusion is that the only way forward is to rescue the most radical roots of the Frankfurt School s work and to recast these in the context of a practical theory of economic and political emancipation
