*Emotion in Motion* Mike Robinson, David Picard, 2016-05-06 What happens when tourists scream with fear shout with anger and frustration weep with joy and delight or even faint in the face of revealed beauty How can certain sites affect some tourists so deeply that they require hospitalisation and psychiatric treatment What are the inner contours of tourist experience and how does it relate to specific emotional cultures What are the consequences of the emotional cultures of tourists upon destinations How are differences in emotional culture mobilized and played out in the transnational contact zones of international tourism While many books have engaged with the structural frames of tourist practice and experience this is the first to deal with the emotional dimensions of tourism travel and contact and the ways in which they can transform tourists destinations and travel cultures through emotional engagements The book brings together an international array of scholars from anthropology psychiatry history cultural geography and critical tourism studies to explore how the movement to and through the realms of exotic people wild nature's subliminal art spirit worlds metropolitan cities and sexualised others variably provoke emotions peak experiences travel syndromes and inner dialogues The authors show how tourism challenges us to engage with concepts of self other time nature sex the body and death Through a set of ethnographic and historic cases they demonstrate that such engagements usually have little to do with the actual destination but rather are deeply anchored in personal memories repressed fears and desires and the collective imaginaries of our societies **Design, User**

Ethnography in the Worlds of Dance examines the deeper meanings and resonances of artistic dance in contemporary culture The book comprises four sections methods and methodologies autoethnography pedagogies and creative processes and choreographies as cultural and spiritual representations The contributors bring an insiders insight to their accounts of the

nature and function of these artistic practices giving voice to dancers dance teachers creators programmers spectators students and scholars International and intergenerational this collection of groundbreaking scholarly research points to a new direction for both dance studies and dance anthropology Traditionally the exclusive domain of aesthetic philosophers the art of dance is here reframed as cultural practice and its significance is revealed through a chorus of voices from practitioners and insider ethnographers

**Mindfulness in Motion** Tamara Russell, 2015-09-15 Discover a life of ease and joy through Body in Mind Training a groundbreaking program focused on movement based mindfulness Written by neuroscientist and mindfulness expert Dr Tamara Russell Mindfulness in Motion presents a new approach to mindfulness that is practiced not by sitting still but by engaging with the moving body It is the only book to explain why moving meditation is the best way of rewiring the brain teaching it to focus on the present moment Russell's simple exercises are designed to be accessible to everyone including those who can't seem to find time for practice and those who have struggled with traditional Zen inspired mindfulness This book will guide you step by step through Dr Tamara Russell's Body in Mind Training BMT program a unique approach to secular mindfulness that uses the moving body as the main meditation tool The message is simple getting out of your head and into your body is the key to a happier healthier life Chapter by chapter the book explores the five principles of movement based mindfulness

Pause In order to hear your body you have to slow down and listen to its voice this is the starting point for BMT mindfulness practice Intention Setting your intention before you act can dramatically increase your ability to achieve what you want in life Attention You can detect the mind wandering habits that hold you back and use your attention to create more space for the things that really matter Understanding Me It's possible to tame your unruly mental monkeys and create new neural pathways in your brain to help you to realize your full potential Compassion Facing and accepting your own difficult experiences can profoundly transform your relationship with life With easy to follow exercises step by step photographs clear brain diagrams and a host of practical tips this book offers all the tools you need to start living in your body With a little focus determination and practice you too can experience the amazing benefits of mindfulness

**Mind in Motion** Barbara Tversky, 2019-05-21 An eminent psychologist offers a major new theory of human cognition movement not language is the foundation of thought When we try to think about how we think we can't help but think of words Indeed some have called language the stuff of thought But pictures are remembered far better than words and describing faces scenes and events defies words Anytime you take a shortcut or play chess or basketball or rearrange your furniture in your mind you've done something remarkable abstract thinking without words In Mind in Motion psychologist Barbara Tversky shows that spatial cognition isn't just a peripheral aspect of thought but its very foundation enabling us to draw meaning from our bodies and their actions in the world Our actions in real space get turned into mental actions on thought often spouting spontaneously from our bodies as gestures Spatial thinking underlies creating and using maps assembling furniture devising football strategies designing airports understanding the flow of

people traffic water and ideas Spatial thinking even underlies the structure and meaning of language why we say we push ideas forward or tear them apart why we re feeling up or have grown far apart Like Thinking Fast and Slow before it Mind in Motion gives us a new way to think about how and where thinking takes place Motion Picture Herald ,1926 **Forces in Motion** Graham Lock,2018-07-18 Based on interviews from a 1985 tour this book profiles one of jazz s most important figures Anthony Braxton discusses the expression of his musical visions and related ethical political and spiritual beliefs Absolutely essential reading The Wire Training in Motion Mike Kuczala,2015-06-10 This book explains how movement enhances learning and introduces a unique and highly effective way to energize a team and increase retention through simple body focused techniques Whether your employees are stuck behind a desk or having to sit through another meeting chances are they are being kept from moving around most of the workday This is resulting in restless bodies wavering attention spans and based on the latest neuroscience research decreased learning and productivity Managers desiring to maximize their employees productivity and reach new levels of success for the company would be wise to not ignore the innate human desire for motion In Training in Motion learn how to Tie lessons to movement in order to reinforce concepts Manage learners physical and emotional states to increase engagement and bolster memory Use posture physical gestures and other movements to command interest Employ quick physical breaks to efficiently refocus your team Turn lackluster meetings into high achieving learning environments Complete with practical easy to apply activities Training in Motion will help you add an almost universally untapped component to your training and managing methods that will provide your office environment the winning edge you ve been searching for Designing Objects in Motion Kensho Miyoshi,2020-11-23 The movement of designed objects is not just something purely functional but also triggers a wide range of sensations A curtain swaying gently in the wind can cause the onlooker to feel easy and relaxed as if it was he or she who is floating in the air This imagined projection caused by the perception of moving objects is called kinesthetic empathy In this study which followed on from a dissertation at the School of Design Research in London the author investigates the esthetics of movement by documenting his own design based learning and research process in terms of research through design using the experimental cooperation with puppet players as an example He thereby creates a framework that allows designers to observe the esthetics of objects in motion as a trigger of feelings Spiritual Power in Motion Ned Byron Pendergast,Lynne P. Ferdon,2018-01-24 How often do we truly find the time to reflect and dwell on our thoughts And even when we do take a moment to read or absorb ourselves in thought how often do we deeply meditate on our thinking or even revisit our understandings In Spiritual Power in Motion authors Ned Byron Pendergast and Lynne Pendergast Ferdon invite you to join them in writing down your own thoughts and ideas in this touching heartfelt and faithful collection of inspirational essays poems and reflections Sharing their own quiet moments and meditations on such themes as emotion healing the majesty of creation the character of our loving God and more Ned and Lynne express in words the life giving power of the Holy Spirit in

offering us daily revelations God and his Holy Spirit are with us throughout this lifetime and by taking time to listen for the Lord in prayer we can hear see and feel this abiding presence each and every step on the way But in order to hear Gods voice or words we must also tell him of our need be willing to listen and have faith that our prayers are heard **Body and Mind in Motion** Glenna Batson, Margaret Wilson, 2014-06-01 Western contemporary dance and body mind education have engaged in a pas de deux for more than four decades The rich interchange of somatics and dance has altered both fields but scholarship that substantiates these ideas through the findings of twentieth century scientific advances has been missing This book fills that gap and brings to light contemporary discoveries of neuroscience and somatic education as they relate to dance Drawing from the burgeoning field of embodiment itself an idea at the intersection of the sciences humanities arts and technologies *Body and Mind in Motion* highlights the relevance of somatic education within dance education dance science and body mind studies *Centric Poetry & Storytelling in Motion* Tabitha Fefee, 2013-08-28 The book is designed to make you laugh cry and related to touching moments in my life and in the lives of others I hope you enjoy the book as much as I enjoyed writing it Love Songs in Motion Christina J. Woolner, 2023-11-24 An intimate account of everyday life in Somaliland explored through an ever evolving musical genre of love songs At first listen both music and talk about love are conspicuously absent from Somaliland s public soundscapes The lingering effects of war the contested place of music in Islam and gendered norms of emotional expression limit opportunities for making music and sharing personal feelings But while Christina J Woolner was researching peacebuilding in Somaliland s capital Hargeysa she kept hearing snippets of songs Almost all of these she learned were about love In these songs poets musicians and singers collaborate to give voice to personal love aspirations and often painful experiences of love suffering Once in circulation the intimate and heartfelt voices of love songs provide rare and deeply therapeutic opportunities for dareen wadaag feeling sharing In a region of political instability these songs also work to powerfully unite listeners on the basis of shared vulnerability transcending social and political divisions and opening space for a different kind of politics Taking us from 1950s recordings preserved on dusty cassettes to new releases on YouTube and live performances at Somaliland s first postwar music venue where the author herself eventually takes the stage Woolner offers an account of love songs in motion that reveals the capacity of music to connect people and feelings across time and space creating new possibilities for relating to oneself and others Songs in Motion Yonatan Malin, 2010-05-26 Qualities of motion and emotion in song come from poetic images melody harmony and voice leading but they also come from rhythm and meter the flow and articulation of words and music in time This book explores rhythm and meter in the nineteenth century German Lied including songs for voice and piano by Fanny Hensel n e Mendelssohn Franz Schubert Robert Schumann Johannes Brahms and Hugo Wolf The Lied as a genre is characterized especially by the fusion of poetry and music Poetic meter itself has expressive qualities and rhythmic variations contribute further to the modes of signification These features often carry over into songs even as they are set in the more strictly

determined periodicities of musical meter A new method of declamatory schema analysis is presented to illustrate common possibilities for setting trimeter tetrameter and pentameter lines Degrees of rhythmic regularity and irregularity are also considered There has been a wealth of new work on metric theory and analysis in the past thirty years here this research is reviewed and applied in song analysis Topics include the nature of metric entrainment drawing on music psychology metric dissonance hypermeter and phrase rhythm Whereas narrative accounts of the nineteenth century Lied typically begin with Schubert here forms of expansion and elision in songs by Hensel provide a point of departure Repetition links up directly with motion in songs by Schubert including his famous Gretchen am Spinnrade The doubling and reverberation of vocal melody creates a form of interiorized resonance in Schumann s songs Brahms and Wolf are typically understood as polar opposites in the later nineteenth century here the differences are clarified along with deeper affinities Songs by both Brahms and Wolf may be understood as musical performances of poetic readings and in this regard they both belong to a late period of cultural history

**Art in Motion, Revised Edition** Maureen Furniss,2008-02-05 This text presents an examination of the aesthetics of animation It provides an overview of the relationship between animation studies and media studies then focuses on issues concerning flat and dimensional and limited and full animation It then looks at specific topics such as gender issues and adaption *A Condensed Course in Motion Picture Photography* New York Institute of Photography,1920

Love in Motion Reidar Due,2013-10-22 This is a book about how film encountered love in the course of its history It is also a book about the philosophy of love Since Plato erotic love has been praised for leading the soul to knowledge The vast tradition of poetry devoted to love has emphasized that love is a feeling Love in Motion presents a new metaphysics and ontology of love as a reciprocal erotic relationship The book argues that film has been particularly well suited for depicting love in this way in virtue of its special narrative language This is a language of expression that has developed in the course of film history The book spans this history from early silent directors such as Joseph von Sternberg to contemporary filmmakers like Sophia Coppola At the centre of this study is a comparison between Classical French and American love films of the forties and a series of modernist films by Luis Bu uel Fran ois Truffaut and Wong Kar Wai
