finally the appearance of the revolutionary epic in Gorky's *The Life of Klim Samgin* Sholokhov's *Quiet Flows the Don* and Alexey Tolstoy's *The Road to Calvary* Professor Freeborn also examines the way this kind of novel has undergone change in response to revolutionary change and he shows how an important feature of this process has been the implicit assumption that the revolutionary novel is distinguished by its right to pass an objective independent judgement on revolution and the revolutionary image of man This is a comprehensive and challenging study of a uniquely Russian tradition of writing which draws on a great range of novels many of them little known in the West As with other titles in this series all quotations have been translated

The Representation of Genocide in Graphic Novels Laurike in 't Veld, 2018-12-19 This book mobilises the concept of kitsch to investigate the tensions around the representation of genocide in international graphic novels that focus on the Holocaust and the genocides in Armenia Rwanda and Bosnia In response to the predominantly negative readings of kitsch as meaningless or inappropriate this book offers a fresh approach that considers how some of the kitsch strategies employed in these works facilitate an affective interaction with the genocide narrative These productive strategies include the use of the visual metaphors of the animal and the doll figure and the explicit and excessive depictions of mass violence The book also analyses where kitsch still produces problems as it critically examines depictions of perpetrators and the visual and verbal representations of sexual violence Furthermore it explores how graphic novels employ anti kitsch strategies to avoid the dangers of excess in dealing with genocide
