Learn how to build an affordable hot rod following the advice of the masters In *How to Build Affordable Hot Rods* author and lifelong hot rod aficionado Tony Thacker takes you through the process of building a hot rod on a budget Drawing on his own extensive experience of both buying and building rods Thacker explores the good the bad and the ugly The good was setting a land speed record at Bonneville the bad was buying a rod from which the previous owner had swapped out the good engine and the ugly well let s just not go there

How to Build Affordable Hot Rods includes extensive how to sections that cover step by step chassis builds for Model A 1932 and 1936 Fords including front and rear end setups The in depth chassis builds are complimented with sections on powertrain choices bodywork and roof chops wheels and tires and wiring and paint Also included are chapters on interiors and the all important details that individualize any project to ensure that it stands out from the rest

When Henry Ford introduced his beloved Model T he unwittingly gave the average person the means to go racing Prior to the T racing was mostly a sport of the rich but that changed with the Model T Stripped of fenders and hopped up with speed parts T speedsters ruled and it wasn t long before enthusiasm on the track translated to the street and the term hot rod entered the vernacular Of course it didn t need to be a Ford and still doesn t but the easiest and therefore cheapest route to Hot Rod Boulevard is down the Ford road

The journey accelerated after World War II as hot rodding boomed with the growth of speed shops car shows drag racing talented and trained GIs returning home and the launch of Hot Rod magazine to spread the gospel far and wide More than 100 years after the original Model T hot rodding remains alive and well in the Australasia Europe and of course its birthplace the US
