Oxford Business Group

January 2016 Intake Technical University Of Kenya:

The Report: Kenya 2016 Oxford Business Group,2015-12-15 The Kenyan economy performed comparatively well in 2015 even in the face of global economic headwinds According to the World Bank GDP growth is expected to reach 5.4% for the year aided in large part by sustained public sector capital spending The country has a strong private sector and received encouraging signs of new oil gas and water reserves which if harnessed appropriately bode well for future growth The country's medium to long term economic outlook is robust With over 40% of the population under the age of 15 Kenya stands to benefit from a significant demographic dividend provided that sufficient jobs can be found when this population enters the workforce The country has a reasonably sized industrial base competitive infrastructure and a large agricultural sector all of which offer opportunities for capital intensive investment

Technology and Oligopoly Capitalism Luis

Suarez-Villa,2023-04-14 Technology and Oligopoly Capitalism is a major contribution to our understanding of how technology oligopolies are shaping America's social economic and political reality Technology oligopolies are the most powerful socioeconomic entities in America From cradle to grave the decisions they make affect the most intimate aspects of our lives how we work what we eat our health how we communicate what we know and believe whom we elect and how we relate to one another and to nature Their power over markets trade regulation and most every aspect of our governance is more intrusive and farther reaching than ever They benefit from tax breaks government guarantees and bailouts that we must pay for and have no control over Their accumulation of capital creates immense wealth for a minuscule elite deepening disparities while politics and governance become ever more subservient to their power They determine our skills and transform employment through the tools and services they create as no other organizations can They produce a vast array of goods and services with labor marketing and research that are more intrusively controlled than ever as workplace rights and job security are curtailed or disappear Our consumption of their products and their capacity to promote wants is deep and far reaching while the waste they generate raises concerns about the survival of life on our planet And their links to geopolitics and the martial domain are stronger than ever as they influence how warfare is waged and who will be vanquished

Technology and Oligopoly Capitalism's critical multidisciplinary perspective provides a systemic vision of how oligopolistic power shapes these forces and phenomena An inclusive approach spans the spectrum of technology oligopolies and the ways in which they deploy their power Numerous previously unpublished ideas expand the repertory of established work on the topics covered advancing explanatory quality to elucidate how and why technology oligopolies operate as they do the dysfunctions that accompany their power and their effects on society and nature This book has no peers in the literature in its scope the unprecedented amount and diversity of documentation the breadth of concepts and the vast number of examples it provides Its premises deserve to be taken into account by every student researcher policymaker and author interested in the socioeconomic and political dimensions of technology in America

UNESCO Science Report
UNESCO,2021-06-18 **New Challenges and Future Perspectives in Nutrition and Sustainable Diets in Africa**
Hettie Carina Schönfeldt,Gloria Essilfie,Yunyun Gong,2024-05-06 Africa is confronted with the triple burden of malnutrition it is also faced with the triple challenges of poverty inequality and unemployment In many African countries large proportions of the population rely on agriculture not only for their food but also for their livelihoods A transformed agricultural and food system is thus a necessary condition for addressing this double triple challenge Additionally post harvest and food waste and losses reduce the availability of sufficient quantities of safe edible and preferable foods At least one third of food produced at farm level is lost due to inappropriate storage infrastructure and agro processing technologies in developing countries and one third of food purchased is wasted at household and retail level
