Kant On Mind Action And Ethics:

Kant on Mind, Action, and Ethics Julian Wuerth, 2014-08-28 In this book Julian Wuerth offers a radically new interpretation of Kant's theories of mind action and ethics As the author of a Copernican revolution in philosophy Kant grounded his philosophy in his positive theory of the mind which remains an enigma two centuries later Wuerth's original interpretation of Kant's theory of mind consults a far wider range of Kant's recorded thought than previous interpretations revealing a fascinating evolution in Kant's thought in the decades before and after his 1781 Critique Starting in the 1760s Kant recognized the unique status of our epistemic contact to ourselves This is the sole instance of our immediate epistemic contact with a substance of being a substance and it is the sole instance of epistemic contact with something other than the particular states of inner sense Contrary to empiricists Kant thus rejects the reduction of the self to a bundle of mental states of inner sense But Kant also rejects the rational psychologists assumption that the soul's substantiality and simplicity implies its permanence incorruptibility and immortality As Kant developed his transcendental idealism he eventually pinpointed the source of their errors a source neither unique to a particular historical school nor random It is instead a deep natural and timeless transcendental confusion Kant's new account of substance allows him to draw new distinctions in kind between sensibility and understanding and between phenomenal and noumenal substance setting the stage for a transcendental argument that only at the phenomenal level do substantiality and simplicity imply permanence and incorruptibility Wuerth next undertakes a groundbreaking study of Kant's theory of action and ethics He first maps Kant's notoriously vast and complex system of the mind's powers drawing on all of Kant's recorded thought This system structures Kant's philosophy as a whole and so provides crucial insights into this whole and its parts including Kant's theory of action a persisting stumbling block for interpreters of Kant's ethics Wuerth demonstrates that Kant rejects intellectualist theories of action that reduce practical agents to pure reason We are instead irreducibly both intellectual and sensible exercising a power of choice or Willkür subject to two irreducible conative currencies moral motives and sensible incentives as Kant makes clear long before his 1785 Groundwork Immoral choices at odds with the former can thus nonetheless be coherent choices in harmony with the latter Wuerth applies these new findings about Kant's theory of mind and action to an analysis of the foundations of Kant's ethics He rejects the dominant constructivist interpretation in favor of a moral realist one At the heart of Kant's Enlightenment ethics is his insistence that the authority of the moral law ultimately rests in our recognition of its authority Kant guides us to this recognition of the authority of the moral law across his works in ethics and his various formulations of the moral law using a single elimination of sensibility procedure Here Kant systematically rejects the pretenses of sensibility to isolate reason and its insights into moral right and wrong Precisely because immoral choice remains a coherent alternative however moral virtue demands our ongoing cultivation of our capacities for cognition feeling desire and character

Joiner, 2017-09-21 Kant scholars and analytic philosophers use varied perspectives to address problems surrounding Kant's theories of God and religion **Ethics of Hospitality** Daniel Innerarity, 2017-01-12 The source of hospitality lies in the fundamental ethical experiences that make up the fabric of the social lives of people Therein lies a primary form of humanity Whether we are guests or hosts this reveals our situation in a world made up of

receiving and meeting leaving room for the liberty to give and receive beyond the imperatives of reciprocity This book proposes an ethic that promotes the possibility of stirring emotion before that of protecting ourselves from unexpected encounters Fundamental ethical competence consists of opening up to the wholly other and to others to be accessible to the world s solicitations There is moral superiority of vulnerable love over control and moderation of generous passion over rational prudence and of excess over exchange Constructing an ethic of hospitality is essential at a time when we are torn between the imperatives of modernization and growth and the demands of concern and protection The experience we all have today that of the fragility of the world is giving rise to a powerful tendency toward solicitude From such a perspective the duty of individuals no longer consists of protecting themselves from society but of defending it taking care of a social fabric outside of which no identity can be formed
