

## GRADE 10 MATHEMATICS MARCH TEST

### QUESTION 1

- 1.1 Copy and complete the following table on your answer sheet. Only tick in the applicable columns.

	N	N <sub>1</sub>	Z	Q	Q'	X	X'
$\sqrt{9} + 1$							
$\frac{5}{2}$							
0,75/3							
$\sqrt{5}$							

- 1.2 Determine between which integers the following irrational number lies:

$$\sqrt{17}$$

- 1.3 Use the ladder method to give the prime factors of 5104.

$$5104 = 2^4 \times 159,5$$

### QUESTION 2

Factorise the following expressions:

2.1  $x^2 - 49$

2.2  $2x^2 + 5x - 12$

2.3  $6x^2 - 13x + 6$

2.4  $3x^2 + 9x - 12$

### QUESTION 3

Simplify the following expressions:

3.1  $(x - 5)(3x + 2)$

3.2  $6x^2 - 12x + 6$

3.3  $\frac{3x^2 + 12x}{3x}$

### QUESTION 4

Simplify the following using the exponential laws.

4.1  $\frac{1}{x^2}$

4.2  $\frac{x^3 \cdot x^2}{x^5}$

Solve for x:

4.3  $2^x - 5 = 11$

### QUESTION 5

Solve for x:

5.1  $(x - 3)(x + 5) = 0$

5.2  $3x^2 + 10x + 7 = 0$

5.3  $\frac{1}{x} + \frac{1}{x+1} = \frac{1}{x+2}$

5.4  $\frac{x+2}{x} + 5 > 8$

5.5 Solve x and y simultaneously:

$$\begin{cases} x + y = 10 \\ x - y = 2 \end{cases}$$

5.6 Jane is 3 years older than her sister. Together they are 19 years old.

$$\begin{cases} J = S + 3 \\ J + S = 19 \end{cases}$$

### QUESTION 6

6.1 Use the following triangle to determine the trigonometric ratios:

## **Mathematics Grade12 March Exam 2014:**

**Leading Change in Your School** Douglas B. Reeves,2009-04-14 Guiding schools through significant change is one of the toughest challenges educational leaders face but learning from the examples of those who have succeeded can make it less daunting In *Leading Change in Your School* distinguished author and researcher Douglas B Reeves offers lessons learned through his work with educators in thousands of schools around the world and presents real life examples of leaders who have met the challenge of change head on with impressive results for their schools and districts Readers will also find practical resources for engaging their colleagues in change initiatives Expanding on a number of his columns in the journal *Educational Leadership* Reeves offers insights ad recommendations in four areas Creating conditions for change including assessments to determine personal and organizational readiness for change Planning change including cautionary notes about strategic planning Implementing change including the importance of moving from rhetoric to day to day reality and Sustaining change including the need to reorient priorities and values so that individual convenience gives way to a shared sense of the greater good The change leaders both teachers and administrators whose stories Reeves tells come from varied districts but they share a passion for creating schools that work for all students They are Reeves says people like you sharing similar challenges but perhaps with different results

**The End of Public Schools** David W. Hursh,2015-10-16 *The End of Public Schools* analyzes the effect of foundations corporations and non governmental organizations on the rise of neoliberal principles in public education By first contextualizing the privatization of education within the context of a larger educational crisis and with particular emphasis on the Gates Foundation and influential state and national politicians it describes how specific policies that limit public control are advanced across all levels Informed by a thorough understanding of issues such as standardized testing teacher tenure and charter schools David Hursh provides a political and pedagogical critique of the current school reform movement as well details about the increasing resistance efforts on the part of parents teachers and the general public

**Research for Educational Change** Jill Adler,Anna Sfard,2016-06-17 *Research for Educational Change* presents ways in which educational research can fulfil its commitments to educational practice Focussing its discussion within the context of mathematics education it argues that while research generated insights can have beneficial effects on learning and teaching the question of how these effects are to be generated and sustained is far from evident The question of how to turn research into educational improvement is discussed here in the context of learning and teaching hindered by poverty and social injustice In the first part of the book four teams of researchers use different methodologies while analysing the same corpus of data collected in a South African mathematics classroom In the second part each of these teams makes a specific proposal about what can be done and how so that its research generated insights have a tangible beneficial impact on what is happening in mathematical classrooms Combining two discourses that of researchers speaking to one another and that of researchers communicating their insights to those responsible for educational practice the book

deals with the perennial question of communication between those who study educational processes and those who are directly responsible for teacher education educational research and classroom practices This book will be key reading for postgraduates researchers and academics in education and particularly in the areas of mathematics education education research teacher education and classroom practice It will also appeal to teacher educators practitioners and undergraduate students interested in educational research

*The Politics of Education in Developing Countries* Sam Hickey, Naomi Hossain, 2019-02-21 Why have many developing countries that have succeeded in expanding access to education made such limited progress on improving learning outcomes There is a growing recognition that the learning crisis constitutes a significant dimension of global inequality and also that educational outcomes in developing countries are shaped by political as well as socio economic and other factors The Politics of Education in Developing Countries focuses on how politics shapes the capacity and commitment of elites to tackle the learning crisis in six developing countries Bangladesh Cambodia Ghana Rwanda South Africa and Uganda The problem of education quality is serious across the Global South The Politics of Education in Developing Countries From Schooling to Learning deploys a new conceptual framework the domains of power approach to show how the type of political settlement shapes the level of elite commitment and state capacity to improving learning outcomes The domain of education is prone to being highly politicized as it offers an important source of both rents and legitimacy to political elites and can be central to paradigmatic elite ideas around nation building and modernity Of particular importance is the relative strength of coalitions pushing for access as against those focused on issues of higher quality education This book concludes with a discussion of entry points and strategies for thinking and working politically in relation to education quality reforms and critical commentaries

**The Education Invasion** Joy Pullmann, 2017-03-14 Most Americans had no idea what Common Core was in 2013 according to polls But it had been creeping into schools nationwide over the previous three years and children were feeling its effects They cried over math homework so mystifying their parents could not help them even in elementary school They read motley assortments of informational text instead of classic literature They dreaded the high stakes tests in unfamiliar formats that were increasingly controlling their classrooms How did this latest and most sweeping reform of American education come in mostly under the radar Joy Pullmann started tugging on a thread of reports from worried parents and frustrated teachers and it led to a big tangle of history and politics intrigue and arrogance She unwound it to discover how a cabal of private foundation honchos and unelected public officials cooked up a set of rules for what American children must learn in core K 12 classes and how the Obama administration pressured states to adopt them Thus a federalized education scheme took root despite legal prohibitions against federal involvement in curriculum Common Core and its testing regime were touted as an absolute game changer in public education yet the evidence so far suggests that kids are actually learning less under it Why then was such a costly and disruptive agenda imposed on the nation s schools Who benefits And how can citizens regain local self governance in education so their

children's minds will be fed a more nourishing intellectual diet and be protected from the experiments of emboldened bureaucrats The Education Invasion offers answers and remedies

**Validation of Score Meaning for the Next Generation of Assessments** Kadriye Ercikan, James W. Pellegrino, 2017-03-27 Despite developments in research and practice on using examinee response process data in assessment design the use of such data in test validation is rare Validation of Score Meaning in the Next Generation of Assessments Using Response Processes highlights the importance of validity evidence based on response processes and provides guidance to measurement researchers and practitioners in creating and using such evidence as a regular part of the assessment validation process Response processes refer to approaches and behaviors of examinees when they interpret assessment situations and formulate and generate solutions as revealed through verbalizations eye movements response times or computer clicks Such response process data can provide information about the extent to which items and tasks engage examinees in the intended ways With contributions from the top researchers in the field of assessment this volume includes chapters that focus on methodological issues and on applications across multiple contexts of assessment interpretation and use In Part I of this book contributors discuss the framing of validity as an evidence based argument for the interpretation of the meaning of test scores the specifics of different methods of response process data collection and analysis and the use of response process data relative to issues of validation as highlighted in the joint standards on testing In Part II chapter authors offer examples that illustrate the use of response process data in assessment validation These cases are provided specifically to address issues related to the analysis and interpretation of performance on assessments of complex cognition assessments designed to inform classroom learning and instruction and assessments intended for students with varying cultural and linguistic backgrounds The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license

**Evidence, Politics, and Education Policy** Lorraine M. McDonnell, M. Stephen Weatherford, 2021-02-01 In Evidence Politics and Education Policy political scientists Lorraine M McDonnell and M Stephen Weatherford provide an original analysis of evidence use in education policymaking to help scholars and advocates shape policy more effectively The book shows how multiple types of evidence are combined as elected officials and their staffs work with researchers advocates policy entrepreneurs and intermediary organizations to develop create and implement education policies Evidence Politics and Education Policy offers an in depth understanding of the political environment in which evidence is solicited and used Two key case studies inform the book's findings The primary case a major multimethod study examines the development and early implementation of the Common Core State Standards at the national level and in four states California Indiana Massachusetts and Tennessee A comparative case analyzes the evidence used in Congressional hearings over the twenty year history of the Children's Health Insurance Program Together the two cases illustrate the conditions under which different types of evidence are used and in particular how federalism the complexity of the policy

problem and the policy's maturity shape evidence use McDonnell and Weatherford focus on three leverage points for strengthening the use of research evidence in education policy integrating research findings with value based policy ideas designing policies with incentives for research use built into their rules and organizational structures and training policy analysts to promote the use of research in policymaking venues

*Contemporary Research and Perspectives on Early Childhood Mathematics Education* Iliada Elia, Joanne Mulligan, Ann Anderson, Anna Baccaglini-Frank, Christiane Benz, 2018-02-21 This book brings together a collection of research based papers on current issues in early childhood mathematics education that were presented in the Topic Study Group 1 TSG 1 at the 13th International Congress on Mathematical Education ICME 13 held at the University of Hamburg in 2016 It will help readers understand a range of key issues that early childhood mathematics educators encounter today Research on early childhood mathematics education has grown in recent years due in part to the well documented positive relation between children's early mathematical knowledge and their later mathematics learning and to the considerable emphasis many countries are now placing on preschool education The book addresses a number of central questions including What is mathematical structural development and how can we promote it in early childhood How can multimodality and embodiment contribute to early mathematics learning and to acquiring a better understanding of young children's mathematical development How can children's informal mathematics related experiences affect instruction and children's learning in different mathematics content areas What is the role of tools including technology and picture books in supporting early mathematics learning What are the challenges in early childhood mathematics education for teachers education and professional development
