Education Reform in the American States Jerry McBeath,Maria Elena Reyes,Mary Ehrlander,2008-04-01 Education Reform in the American States is a timely evaluation of the accountability movement in American public education culminating in the No Child Left Behind Act federal legislation of 2002 The authors treat the current accountability movement placing it in historical context and addressing the evolution in public education policymaking from the

overwhelming emphasis on state and local discretion to increasing federal oversight and mandates related to federal funding They provide case studies of the educational accountability movements in nine states and analyze the factors and forces which explain progress in achievement levels as measured on standardized tests and the states prospects for meeting their NCLB targets The book and the individual case studies acknowledge the merits of NCLB while exposing several significant flaws and unintended harmful consequences of the act particularly its incentives for states to lower their standards in order to meet annual yearly progress targets and its threat to withdraw federal funds from districts with the highest percentage of disadvantaged students The audience for this study includes local state and federal education policy makers administrators and instructors in schools of education and other teaching programs educators and the general public Innovative Intelligent Industrial Production and Logistics Michele Dassisti,Kurosh Madani,Hervé Panetto,2025-02-12 This two volume set CCIS 2372 2373 constitutes the proceedings of the 5th International Conference on Innovative Intelligent Industrial Production and Logistics IN4PL 2024 held in Porto Portugal during November 21 22 2024 The total of 15 full papers along with 38 short papers presented together in this book was carefully reviewed and selected from 76 submissions This conference focuses on research and development involving innovative methods software and hardware whereby intelligent systems are applied to industrial production and logistics This is currently related to the concept of industry 5 0 an expression the new wave that extends the trend towards automation and data exchange in manufacturing technologies and processes including cyber physical systems the industrial internet of things industrial robotics cloud computing cognitive computing and artificial intelligence towards the new role of human resources cooperating with these technologies

Mathematical and Statistics Anxiety: Educational, Social, Developmental and Cognitive Perspectives Kinga Morsanyi,Irene Cristina Mammarella,Denes Szűcs,Carlo Tomasetto,Caterina Primi,Erin Anne Maloney,2017-01-19 Mathematical anxiety is a feeling of tension apprehension or fear which arises when a person is faced with mathematical content The negative consequences of mathematical anxiety are well documented Students with high levels of mathematical anxiety might underperform in important test situations they tend to hold negative attitudes towards mathematics and they are likely to opt out of elective mathematics courses which also affects their career opportunities Although at the university level many students do not continue to study mathematics social science students are confronted with the fact that their disciplines involve learning about statistics another potential source of anxiety for students who are uncomfortable with dealing with numerical content Research on mathematical anxiety is a truly interdisciplinary field with contributions from educational developmental cognitive social and neuroscience researchers The current collection of papers demonstrates the diversity of the field offering both new empirical contributions and reviews of existing studies The contributors also outline future directions for this line of research **Equity, Equality, and Reform in Contemporary Public Education** Grant, Marquis C.,2018-03-30 Equality and equity are often mischaracterized as interchangeable terms in public education This may

explain why efforts towards reform and restructure are often not met with any real measure of success Equity Equality and Reform in Contemporary Public Education provides emerging research on the reformation of education curriculum to provide proportionate opportunities for marginalized students and support for student achievement in public education While highlighting topics such as achievement gaps gender biases and multicultural responsiveness this book explores the theories and applications of different measures of reform to promote fairness among individual students This book is an important resource for educators professionals school administrators researchers and practitioners in the field of education *Index Medicus* ,2001-06 Vols for 1963 include as pt 2 of the Jan issue Medical subject headings Rethinking Risk in National Security Michael J. Mazarr,2016-05-18 This book examines the role of risk management in the recent financial crisis and applies lessons from there to the national security realm It rethinks the way risk contributes to strategy with insights relevant to practitioners and scholars in national security as well as business Over the past few years the concept of risk has become one of the most commonly discussed issues in national security planning And yet the experiences of the 2007 2008 financial crisis demonstrated critical limitations in institutional efforts to control risk The most elaborate and complex risk procedures could not cure skewed incentives cognitive biases groupthink and a dozen other human factors that led companies to take excessive risk By embracing risk management the national security enterprise may be turning to a discipline just as it has been discredited **Discover Sociology** William J.
