Max Starkloff And The Fight For Disability Rights:

Max Starkloff and the Fight for Disability Rights Charles E. Claggett (Jr.), Richard H. Weiss, 2014 Max Starkloff a quadriplegic from the age of twenty one became an influential advocate for people with disabilities Today Starkloff s legacy continues to better the lives of disabled individuals throughout the United States Provided by publisher **In Sickness and in Health** Ben Mattlin, 2018-01-30 A frank humorous exploration of interabled dating love and marriage Ben Mattlin s wife ML recalls falling in love with his confidence and sheer determination On one of their earliest dates he persuaded her to ride on his lap in his wheelchair on their way home from an Elvis Costello concert Thirty years later they still travel like this from time to time undaunted by the curious stares following them down the street But In Sickness and in Health is more than an inspiring story of how a man born with spinal muscular atrophy a congenital and incurable neuromuscular condition survived childhood graduated from Harvard married an able bodied woman built a family with two daughters and a cat and a turtle established a successful career in journalism and lived happily ever after As Mattlin considers the many times his relationship has been met with surprise or speculation by outsiders those who consider his wife a saint or him just plain lucky for finding love he issues a challenge to readers why should the idea of an interabled couple be regarded as either tragic or noble Through conversations with more than a dozen other couples of varying abilities ethnic backgrounds and orientations Mattlin sets out to understand whether these pairings are as unusual as onlookers seem to think Reflecting on his own experience he wonders How do people balance the stresses of personal care help with the thrill of romance Is it possible that the very things that appear to be insurmountable obstacles to a successful relationship the financial burdens the physical differences the added element of an especially uncertain future could be the building blocks of an enviable level of intimacy and communication that other couples could only dream of We meet Shane Burcaw a twenty three year old writer who offers a glimpse of his first forays into dating with a disability There s Rachelle Friedman the paralyzed bride as the media refers to her and her husband discussing the joys and challenges of a new marriage and a growing family And Christina Crosby and her partner Janet Jakobsen reflect on how Crosby s disabling accident called for them to renegotiate their roles and expectations in their long term relationship What emerges is a candid glimpse into the challenges and joys of interabled love from the first blush of sexual awakening to commitment and marriage and through to widowhood **An Independent Man** Scot Danforth, 2025 The first biography of one of the founders of the disability rights movement An Independent Man chronicles the life of an activist who reimagined the meaning of equality and inspired generations of reformers Before Jonas Salk s vaccine polio was a social death sentence The disabled were expected to disappear into their limitations pitied by those around them This might have been the story of Ed Roberts paralyzed and consigned to sleep in an iron lung But Roberts insisted on what all people deserve a full life Scot Danforth deftly captures Roberts s adventurous personality and radical vision chronicling his life from his student activist days at the University of California Berkeley in the early 1960s to

his career highlights of establishing the pioneering Center for Independent Living and directing California's Department of Rehabilitation By insisting that disabled persons are valuable members of society and by translating his ideas into action Roberts laid the ground for the Americans with Disabilities Act and the ongoing movement for equality

Creativity and Community among Autism-Spectrum Youth Peter Smagorinsky, 2016-12-10 This edited volume explores the roles of socially channeled play and performance in the developmental trajectories of young people who fall on the autism spectrum The contributors offer possibilities for channels of activity through which youth on the autism spectrum may find acceptance affirmation and kinship with others Positive social updraft characterizes the social channels through which people of difference might be swept up into broader cultural currents such that they feel valued appreciated and empowered A social updraft provides cultural mediational means that include people in a current headed upward allowing people of atypical makeups to become fully involved in significant cultural activity that brings them a feeling of social belonging

Barrier Statistics Elton Thomas, 2024-10-07 Barrier Statistics An Analytical Perspective on American History uncovers how statistics often seen as objective facts have historically been used to uphold societal barriers and perpetuate inequality This groundbreaking book delves into the dark side of data showing how numbers have been manipulated to justify policies that marginalized entire communities whether based on race gender ability or economic status From the doctrine of separate but equal that reinforced racial segregation to the misleading data that denied women access to equal pay this book takes a critical look at how statistics have played a key role in maintaining injustice In Barrier Statistics author Elton Thomas a passionate advocate for the disability community and seasoned leader in process improvement takes readers on a journey through pivotal moments in American history where data was weaponized to maintain systemic barriers Whether it's the exclusion of people with disabilities from public transportation the disproportionate incarceration of Black men justified by biased crime statistics or the environmental injustice faced by marginalized communities Thomas reveals how numbers were often used as tools of oppression This

analytical approach reexamines the societal impact of data that shaped national policies and perpetuated inequality for generations. Drawing from a wide range of historical events and using real life examples the book shines a light on the people who fought back against these barrier statistics. Civil rights leaders, disability advocates and grassroots movements worked to dismantle these flawed narratives demanding transparency, equity and better data. Their tireless efforts remind us that statistics can also be a powerful tool for liberation when used responsibly and inclusively. Thomas highlights leaders like Max Starkloff who challenged transportation systems that excluded wheelchair users and Thurgood Marshall who exposed the racist data used to defend segregation in schools demonstrating how these figures reshaped the narrative to fight for justice. This book isn't just a historical recount it's a call to action. As we enter a new era dominated by big data algorithms and artificial intelligence, *Barrier Statistics* encourages readers to critically examine the information we rely on today. With data playing an increasingly central role in decision making the future depends on our ability to ensure that numbers are used to dismantle barriers not reinforce them. Elton Thomas who is legally blind brings a unique perspective to this work as a long time advocate for the disability community. With years of experience working at the Lighthouse for the Blind to improve employment for individuals who are blind and serving as Vice President of the Board of Directors at Paraquad, a leading independent living center in St. Louis, Missouri, Thomas is committed to creating opportunities for marginalized communities. Combining his expertise as a Lean Six Sigma Master Black Belt and an MBA graduate from the University of Missouri, St. Louis, Thomas presents a compelling argument for how data has shaped societal norms and offers insights into how we can use statistics to build a more just and equitable future. *Barrier Statistics: An Analytical Perspective on American History* is a must read for anyone interested in the intersection of history, data and social justice. Whether you are a student of history, a policy analyst or an activist fighting for change, this book will deepen your understanding of how data has been used and misused in shaping the American experience. It challenges readers to question the numbers we often take at face value and offers hope for a future where data serves as a tool for progress rather than exclusion.

Undoing Ableism Susan Baglieri, Priya Lalvani, 2019-08-30. *Undoing Ableism* is a sourcebook for teaching about disability and anti ableism in K-12 classrooms. Conceptually grounded in disability studies, critical pedagogy and social justice education, this book provides both a rationale as well as strategies for broad based inquiries that allow students to examine social and cultural foundations of oppression, learn to disrupt ableism and position themselves as agents of social change. Using an interactive style, the book provides tools teachers can use to facilitate authentic dialogues with students about constructed meanings of disability, the nature of belongingness and the creation of inclusive communities.
