**Building capability in the Senior Civil Service to meet today's challenges** Great Britain: National Audit Office,2013-06-19 The Government now accepts the urgent need for a leadership group that can think across departmental boundaries and lead change but there is still a long way to go to change the long standing culture of the Senior Civil Service The NAO watchdog welcomed the ambition of the Civil Service Reform Plan and emphasised the urgent need to make progress given that the plan underpinned the Government s chances of achieving further efficiency savings At present there are significant skills shortages particularly in the areas of commerce project management digital delivery and change leadership In December 2012 only four out of 15 Permanent Secretaries at major delivery departments had significant operational delivery and commercial experience The 24 professional networks in the civil service lack influence across departmental silos and may not be the right groupings to meet the needs of the modern service The Government intends to open up the service with more internal transfers and free flow of skills to and from the private sector and build on an approach already in place for the top 200 But the proportion of new recruits from the private sector fell in 2009 10 as departments cut spending and has yet to recover Promotion to the Senior Civil Service is becoming so financially unattractive as to put off talented people The NAO warns that the latest moves to increase pay flexibility and offer incentives for business critical roles may not be enough to recruit motivate and retain the right people Armed Forces' Pay Review Body forty-first report 2012 Armed Forces' Pay Review Body,2012-03-13 This is the 41st Report by the Armed Forces Pay Review Body and provides independent advice to the Prime Minister and the Secretary of State for Defence on remuneration and charges for members of the naval military and air forces of the Crown As last year the

Secretary of State for Defence directed the Review Body to confine recommendations on an overall pay uplift to those earning 21 000 or less because of the two year pay freeze imposed across the public sector The main recommendation is for an increase of 250 in military salaries for those earning 21 000 or less A number of other recommendations are made on targeted pay measures and accommodation and food charges Border Crossings Yves Gambier, Luc van Doorslaer, 2016-09-14 For decades Translation Studies has been perceived not merely as a discipline but rather as an interdiscipline a trans disciplinary field operating across a number of boundaries This has implied and still implies a considerable amount of interaction with other disciplines There is often much more awareness of and attention to translation and Translation Studies than many translation scholars are aware of This volume crosses the boundaries to other disciplines and explicitly sets up dialogic formats every chapter is co authored both by a specialist from Translation Studies and a scholar from another discipline with a special interest in translation Sixteen disciplinary dialogues about and around translation are the result sometimes with expected partners such as scholars from Computational Linguistics History and Comparative Literature but sometimes also with less expected interlocutors such as scholars from Biosemiotics Game Localization Research and Gender Studies The volume not only challenges the boundaries of Translation Studies but also raises issues such as the institutional division of disciplines the cross fertilization of a given field the trends and turns within an interdiscipline

*Defence Inflation* Keith Hartley, Binyam Solomon, 2018-10-18 Defence inflation is a recurring factor in determining defence spending. It is widely reported in official government publications and in the trade press but remains relatively neglected by defence and peace economists. In this book international contributors from Finland, Norway, Sweden, the UK and the USA distinguish between defence inflation and cost escalation and identify the causes of both. They use specific case studies to address a wide variety of theoretical and empirical issues and key questions including the following: Does defence inflation affect all countries? What are its effects? Why does it occur? How, if at all, can defence inflation be controlled? While most industry and trade press devote considerable ink and space to the discussion of defence inflation, cost escalation and their consequential impact on the purchasing dollars of the armed forces, economists have been relatively silent. This book aims to rectify this oversight through a multinational survey and analysis of the topic while also identifying the opportunities for further theoretical and empirical research in the field. This book was originally published as a special issue of the journal *Defence and Peace Economics*.

**Ministry of Defence annual report and accounts 2006-07** Great Britain: Parliament: House of Commons: Defence Committee, 2008-01-28 This report analyses the Annual Report and Accounts 2006-07 of the Ministry of Defence. MoD published as HC 697 session 2006-07 ISBN 9780102946369 The MoD's assessment of its expected achievements against its six Public Service Agreement (PSA) targets which run until the end of March 2008 has deteriorated since the previous year's Annual Report and Accounts. At the end of 2007 the MoD did not expect to meet the target relating to generating forces and expects only partly to meet targets relating to recruitment and retention and defence equipment procurement. The failure to meet the target for generating forces is a consequence of the continuing high levels of deployment of the Armed Forces. The Committee is concerned that the Armed Forces have been operating at or above the level of concurrent operations; they are resourced and structured to deliver for seven of the last eight years and for every year since 2002. Achieving manning balance in all three Services continues to be a challenge. Shortages remain within many specialist trades in all three Armed Services but especially in the Army Medical Service. The report notes the failure to meet harmony guidelines in the Army and the Royal Air Force, another indicator of the pressure on the Armed Forces from the continuing high level of operations and another target missed by all three services is for ethnic minority recruitment. The MoD continues to experience substantial forecast cost increases on equipment programmes and the report notes delays in delivering equipment programmes to the planned in-service dates. The MoD faces difficult choices in the face of expected cuts in the defence programme and the management of a streamlining exercise to reduce civilian posts in the headquarters.

Contemporary Military Reserves Eyal Ben-Ari, Vincent Connelly, 2022-12-30 This book offers a comparative study of military reserves in contemporary democracies. A combination of budgetary pressures, new missions and emerging military roles during the past three decades has led the armed forces of

democracies to rethink the training and use of reserve forces Moreover reservists have become central to the armed forces as part of moves towards total or comprehensive defense Despite this a scholarly bias towards studying regulars and conscripts means that reservists and reserve soldiers continue to receive only marginal attention This volume fills that lacuna through a series of country studies examining how best to understand the peculiarities of reservist service In contrast to regulars and conscripts reservists are marked by their dual management of civilian and military careers different family dynamics diverse motivations and commitment to the armed forces the material and non material incentives they are offered and their place in the political sphere This volume suggests two frames to make sense of such differences first it looks at reservists as transmigrants traveling between the military and civilian worlds and second it analyzes the multiple informal contracts and negotiations that bind them to the military All the chapters adopt these conceptualizations granting the volume a common focus and integrative frame The volume will be of much interest to students of military and strategic studies civil military relations sociology and International Relations

**The Budget of the United States Government** United States. Office of Management and Budget, **HC 59 - Well-Being - HC 59** Great Britain: Parliament: House of Commons: Environmental Audit Committee, 2014-06-05 The Government's Natural Capital Committee set up to check how far the Government bases its policies on the cost the benefits the UK derives from its natural environment such as clean air water food and recreation should be put on a permanent statutory footing the Environmental Audit Committee recommends The NCC was set up in May 2012 with a three year remit that ends just before the General Election It has produced 2 progress reports so far highlighting gaps in the available data on these factors and calling for a 25 year plan to plug the gaps and start using the information in Government decisions But the Government has yet to respond in detail to those NCC reports The environment is just one strand of a wider view of people's well being which also addresses people's economic and social circumstances as well as their view of the satisfaction they get from their lives In November 2010 the Prime Minister launched a programme to measure well being to complement economic statistics like GDP in measuring our progress as a country However more than three years since then the Committee note our quality of life is not yet receiving the same attention as those economic metrics The Committee highlight the links being uncovered in the statistics between people's view of their well being and their background and circumstances for example the link between well being and people's health marital status or religion But the MPs warn that the data are not yet sufficiently robust to support a single metric that could encompass well being and

which could be set alongside GDP      Storm and Sack Gavin Daly,2022-10-06 During the Peninsular War Wellington's army stormed and sacked three French held Spanish towns Ciudad Rodrigo 1812 Badajoz 1812 and San Sebastian 1813 Storm and Sack is the first major study of British soldiers violence and restraint towards enemy combatants and civilians in the siege warfare of the Napoleonic era Using soldiers letters diaries and memoirs Gavin Daly compares and contrasts military practices and attitudes across British sieges spanning three continents from the Peninsular War in Spain to India and South America He focuses on siege rituals and laws of war and uncovering the cultural and emotional history of the storm and sack of towns This book challenges conventional understandings of the place and nature of sieges in the Napoleonic Wars It encourages a rethinking of the notorious reputations of the British sacks of this period and their place within the long term history of customary laws of war and siege violence Daly reveals a multifaceted story not only of rage enmity plunder and atrocity but also of mercy honour humanity and moral outrage      **The Handbook of Media and Culture in the Middle East** Joe F. by the EU focusing on its attempts to build Member States in the Western Balkan region This book analyses the European Union's policies towards and the impact they have upon the states of the Western Balkans and assesses how these affect the nature of EU foreign policy To this end it focuses on the tools and mechanisms that the EU employs in its enlargement policy and examines the new instruments of direct intervention in Bosnia and Kosovo political coercion in the case of Croatia and Serbia in relation to the International Criminal Tribunal for the former Yugoslavia and stricter conditionality in the Western Balkan countries The book discusses the key aim of this special form of statebuilding which is to establish functional liberal democratic states in Albania Bosnia and Herzegovina Croatia Kosovo Macedonia Montenegro and Serbia in order for them to join the EU and to cope with the responsibilities and pressures of membership in the future However the authors argue that while the EU sees itself as an international actor that promotes and protects liberal democratic values norms and principles its experiences in the Western Balkans demonstrate how the EU's actions in the region have undermined the basic principles of democratic decision making such as the European support for impositions in Bosnia and international law Kosovo and have consequently contributed to new tensions see police reform in Bosnia and the tensions between Kosovo and Serbia and dependencies This book will be of much interest to students of statebuilding EU politics global governance and IR Security Studies in general
