Traders shows you how to trade smarter than Wall Street and quants Most traders learn to trade the wrong way and realize only years later that their trading system has been focused on all the wrong things You can save yourself countless hours and dollars by learning to trade Forex based on the principles and practices of history s greatest traders Discover what works and what doesn t It s doing the simple things well that will yield the best results in trading If you fail to master the fundamentals of successful trading you are virtually guaranteed to fail long term because of poor risk management In this book you ll learn The 25 beliefs of highly successful traders and how to model them The scientific path to financial freedom using a trading system that creates consistent profits again and again How to develop a working model of the forex market that allows you to spot opportunities and avoid mistakes How to get an edge and trade like the house without an algorithm or inside information How to set simple objectives that let you risk less and win big more often How to run your trading business like a hedge fund The one secret the world s top trading psychologist recommends How to balance your trader analyst and risk manager roles The 12 daily tasks of top Forex traders How to get in the trading zone like an elite athlete *THINK LIKE A WHALE TRADE AS A SHARK* George Protonotarios, There are three important conditions to trade successfully in any financial market a strong fundamental landscape a nice market structure and an accurately measured trading range If fundamentals agree and the market structure has proven itself knowing the trading range is the only thing you need This book contains a wide variety of technical analysis methods and techniques in order to help investors recognize market structure in early stages identify support and resistance and accurately measure the trading range However the complex world of financial trading is a zero sum game Someone has to lose in order for someone else to make a profit And as there are a few people making a lot of money there are a lot of others who lose constantly This is why clever investors always add a contrarian flavor to their decision making process and most of the time trade against the public sentiment All financial asset classes follow a similar pattern that starts with fear and ends with greed Smart traders enter the market when the fear of retail traders pushes prices below their fair value and sell when the retail greed pushes prices well above their fair value This never ending circle between fear and greed creates numerous opportunities for patient traders On a macro scale fundamental analysis is the perfect tool for identifying the fair value of a financial asset and measure risk Risk and reward are the two crucial inputs of any investment decision In addition technical analysis is useful for the identification of price trends and the optimization of entries in the market Professional traders use both these analysis methods in their decision making process They use fundamental analysis to decide what to buy and technical analysis to decide when to buy To summarize this concept in just one phrase always think like a fundamentalist investor when deciding what to buy and act as a technician trader when entering the market Think like a whale and trade as a shark Successful trading requires a strong personality and a character that will allow you to trade without fear and greed Weak hands lose money in the long run The stronger your character the stronger your hands If you want to be a successful trader start by building your character

something that cannot be easily taught

CHAPTERS

This book covers a wide range of fundamental resources and technical analysis techniques in order to help investors seek proof in the right place Any successful trading decision must have a fundamental background Chapter 1 begins with the basics of fundamental analysis when trading equities Forex currencies and cryptocurrencies The main goal of studying fundamentals is to identify investment opportunities Opportunity can be defined as the difference between the current price of an asset and its real value Fundamental analysis can recognize risk and reward the two most crucial inputs of the decision making process In Chapters 2 3 4 5 and 6 you will find various technical analysis methods with many examples and charts Trading charts can be read significantly easier than raw data Reading charts is useful not only for identifying key trends but also for recognizing major support and resistance levels Furthermore you will learn how to use moving averages RSI the Fibonacci Numbers the Fibonacci Retracement and the definition of the long term trend in any financial market By combining all these different technical analysis tools you will be able to recognize any market conditions identify strong trends spot the potential levels of a trend reversal but most importantly accurately measure the trading range In Chapter 7 you will learn about the role of market volatility and its importance for managing risk and achieving portfolio diversification How to use the Bollinger Bands and ATR when trading indices and Beta when trading individual stocks In addition you will learn about the VIX Index and its ability to predict a financial crisis but also how to use options contracts to spot incoming market volatility Finally you will learn about the basics of Foreign Exchange and cryptocurrency volatility In Chapter 8 you will find information about seasonality statistics and seasonal patterns Seasonality refers to a time period in which market data tends to experience common and predictable behavior Whenever a seasonal pattern has been repeated regularly it becomes statistically significant However seasonality reflects an average reliance on past market data That means seasonal patterns provide a window of opportunity and not an independent forecasting framework A seasonal pattern can be any price pattern correlated to a particular month quarter or semester You will be able to find seasonal patterns for Dow Jones Industrial three popular currency pairs EURUSD GBPUSD and USDJPY and two key cryptocurrency pairs Bitcoin and Ethereum against the US dollar In Chapter 9 you will learn about market sentiment The market sentiment refers to the views opinions and expectations of investors toward the future market conditions It is very important to distinguish between the experts sentiment that you should trade in line with it and the public sentiment that you should generally trade against it The greatest trading opportunities in life are against the general public sentiment You will learn also about the Fear Greed index the Overnight Repo Rate the Perpetual Contracts and how to use the Commitment of Traders COT report If there is one golden rule when investing it s to always diversify your investment decisions This rule is applicable in every aspect of our life In Chapter 10 you will learn about money management Money management refers to the process of achieving risk control over your portfolio by eliminating the unnecessary risk and it is a key ingredient of long term trading success You will learn about market correlations cross market connections position sizing

the 2% rule the Reward Risk Ratio the Win Ratio and why you should always trade small account sizes By combining the information and tools presented in this book you have the opportunity to better understand the mechanics of the global financial markets and significantly increase your odds of winning in the long run Success is all about education and building the right character The more educated you become the stronger your character when others are greedy and the stronger your hands when others are fearful George M Protonotarios Financial Analyst M Sc Int Banking Finance Salford UK www.TradingCenter.org The Four Hour Forex Week : Weird Forex Trading Tactics of Set and Forget Trading Trader X,2013-02-17 So you are dreaming of blue turquoise beaches pearl white sand and you day trading from the board of your new sail boat yacht The breeze is smooth and even and sailing is a pure pleasure The wind is gently kissing your head and moving your hair The day will soon be over and you are about to dock on exotic island in the Caribbean Another boat is passing by and the captain is giving you a friendly hand wave Bunch of dolphins are showing off at the bow and jumping and looping beautifully in the water They are trying to keep up with the boat The water is crystal clear and you can see the marine life and the spectrum of amazing colors all the way to the bottom of the reef You throw in the lines to the dock master and retreat to a luxurious resort with full amenities and world class service After a short break you are down at the local marina bar drinking on something that comes with small umbrella on top And then you woke up Not only this was a beautiful exotic dream sooo wonderful and sweet you don't believe that it's ended in such a cruel demanding reality You've been staring in the monitor for hours your eyes got sooo swollen you could hand a coat on them In a matter of fact you were so exhausted falling asleep was a natural reaction of your body See you just realized your trade almost reached your target but not quite just about at the point of your dream where you got to the exquisite resort After that the price met a hard FIB combined with a round number and a solid support resistance level The market reversed sharply on you and you are looking at a huge loss and your account is down 25% If this scenario looks familiar don't despair It seems like a short 4 years ago I was in your predicament if not even worse I say 4 short years but it did seem like ages passed since then I can still see myself in clear desperation and depression Just spent the last dollar to my name on a risky trade Entered EUR USD on a whim from a guru's article advice A half hour later got a margin call from the broker and my account was disabled I thought to myself that's it I am done with this nonsense See I was dreaming of becoming a big PLEYAHHH but was drowning in debt and piling up the shelves in my room with the newest shockingly a slightly different copy of the previous system See the Forex education market is full of education sharks This people are preying on newbies and aggressively targeting beginners But I am sick and tired to see honest people like you lose their hot cash to the cold broker games So I decided to put an end of this and level the playing field and for all Honestly I might get some of the big dogs really upset and even mad when they find out this info had leaked out The book you are about to read reveals the highly guarded secrets of an underground Forex society You can read all about this in Chapter 8 on Forex Tips and Tricks page 89 The harsh vivid reality is that 95% percent of the
