## **Funeral Rites Jean Genet:**

*Funeral rites* Jean Genet, 1973      The Rites of Passage of Jean Genet Gene A. Plunka, 1992 In this book Gene A Plunka argues that the most important single element that solidifies all of Genet's work is the concept of metamorphosis Genet's plays and prose demonstrate the transition from game playing to the establishment of one's identity through a state of risk taking that develops from solitude However risk taking per se is not as important as the rite of passage Anthropologist Victor Turner's work in ethnography is used as a focal point for the examination of rites of passage in Genet's dramas Rejecting society Genet has allied himself with peripheral groups marginal men and outcasts scapegoats who lack power in society Much of their effort is spent in revolt or direct opposition in mainstream society that sees them as objects to be abused As an outcast or marginal man Genet solved his problem of identity through artistic creation and metamorphosis Likewise Genet's protagonists are outcasts searching for positive value in a society over which they have no control they always appear to be the victims or scapegoats As outcasts Genet's protagonists establish their identities by first willing their actions and being proud to do so Unfortunately man's sense of Being is constantly undermined by society and the way individuals react to roles norms and values Roles are the products of carefully defined and codified years of positively sanctioned institutional behavior According to Genet role playing limits individual freedom stifles creativity and impedes differentiation Genet equates role playing with stagnant bourgeois society that imitates rather than invents the latter is a word Genet often uses to urge his protagonists into a state of productive metamorphosis Imitation versus invention is the underlying dialectic between bourgeois society and outcasts that is omnipresent in virtually all of Genet's works Faced with rejection poverty oppression and degradation Genet's outcasts often escape their horrible predicaments by living in a world of illusion that consists of ceremony game playing narcissism sexual and secret rites or political charades Like children Genet's ostracized individuals play games to imitate a world that they can not enter Essentially the play acting becomes catharsis for an oppressed group that is otherwise confined to the lower stratum of society Role players and outcasts who try to find an identity through cathartic game playing never realize their potential in Genet's world Instead Genet is interested in outcasts who immerse themselves in solitude and create their own sense of dignity free from external control Most important these isolated individuals may initially play games yet they ultimately experience metamorphosis from a world of rites charades and rituals to a type of sainthood where dignity and nobility reign The apotheosis is achieved through a distinct act of conscious revolt designed to condemn the risk taker to a degraded life of solitude totally distinct from society's norms and values Book Jacket

*Sex Drives* Laura Frost, 2018-08-06 Salvador Dal's autobiography confesses that Hitler turned me on in the highest while Sylvia Plath maintains that every woman adores a Fascist Susan Sontag's famous observation that art reveals the seamier side of fascism in bondage discipline and sexual deviance would certainly appear to be true in modernist and postwar literary texts How do we account for eroticized representations of fascism in anti fascist literature for sexual desire that escapes the

bounds of politics Laura Frost advances a compelling reading of works by D H Lawrence Virginia Woolf Jean Genet Georges Bataille Marguerite Duras and Sylvia Plath paying special attention to undercurrents of enthrallment with tyrants uniforms and domination She argues that the first generation of writers raised within psychoanalytic discourse found in fascism the libidinal unconscious through which to fantasize acts including sadomasochism and homosexuality not permitted in a democratic conception of sexuality without power relations By delineating democracy's investment in a sexually transgressive fascism an investment that persists to this day Frost demonstrates how politics enters into fantasy This provocative and closely argued book offers both a fresh contribution to modernist literature and a theorization of fantasy

**Jean Genet** Bettina Liebowitz Knapp, 1968 [The politics of Jean Genet's late theatre](#) Carl Lavery, 2017-10-03 Jean Genet and the politics of theatre is the first publication to situate the politics of Genet's theatre within the social spatial and political contexts of France in the 1950s and 1960s The book's innovative approach departs significantly from existing scholarship on Genet Where scholars have tended to bracket Genet as either an absurdist ritualistic or more recently a resistant playwright this study argues that his theory and practice of political theatre have more in common with the affirmative ideas of thinkers such as Henri Lefebvre Jacques Rancière and Alain Badiou By doing so the monograph positions Genet as a revolutionary playwright interested in producing progressive forms of democracy This original and interdisciplinary reading of Genet's late work will be of interest to students and practitioners of Theatre as well as those interested in French and History *Funeral rites. Translated by Bernard Frechtman* Jean Genet, 1969 *The Possibility of Weakness of Will* Robert Dunn, 1987-01-01 The book reveals a rare blend of virtues a mastery of the literature a lucidity of mind a rigor of argument and a robust sense of psychological realism It soars yet rarely loses sight of the terrain Bela Szabados Canadian Philosophical Review *The Event of Style in Literature* M. Aquilina, 2014-09-16 The Event of Style in Literature brings discussions about the question of style up to date by schematising the principal issues relating to the topic through a critical overview of the canon of style studies It reads the work of Jacques Derrida Maurice Blanchot and Hans Georg Gadamer as groundbreaking and eventful interventions **Somatic Desire** Christine Rojcewicz, Richard Kearney, Sarah Horton, Stephen Mendelsohn, 2019-01-17 The essays in this volume all ask what it means for human beings to be embodied as desiring creatures and perhaps still more piercingly what it means for a philosopher to be embodied In taking up this challenge via phenomenology psychoanalysis hermeneutics and the philosophy of literature the volume questions the orthodoxies not only of Western metaphysics but even of the phenomenological tradition itself We miss much that has philosophical import when we exclude the somatic aspects of human life and it is therefore the philosopher's duty now to rediscover the meaning inherent in desire emotion and passion without letting the biases of any tradition determine in advance the meaning that reveals itself in embodied desire Continental philosophers have already done much to challenge binary oppositions and this volume sets out a new challenge we must now also question the dichotomy between being at

home and being alienated Alterity is not simply something out there separate from myself rather it penetrates me through and through even in my corporeal experience My body is both my own and other I am other than myself and therefore other than my body Additionally this book is a conversation not a presentation of a new orthodoxy Thus the hope is that these essays will open the way for further dialogue that will continue to radically rethink our understanding of embodied desire Gathered together here are twelve essays that address these issues from deeply interrelated albeit unique perspectives from within the field

**The Mother in the Age of Mechanical Reproduction** Elissa Marder, 2012 This book analyses the relationship between the body technology and language by focusing on the uncanny figure of the mother in psychoanalysis photography and literature and contends that the concept of human birth is represented through mechanical repetition and technological modes of reproduction rather than as a natural event

**FUNERAL RITES. TRANS. BY BERNARD FRECHTMAN.** Jean Genet, 1969 The French Genealogy of The Beat Generation Veronique Lane, 2017-10-19 The first critical study of the key role that modern French literature played in the formation and development of the oeuvres of the major American Beat writers in the mid 20th century *Crossover Queries* Edith Wyschogrod, 2006 Drawing together pieces from over twenty years that reflect her penetrating thought *Crossover Queries* presents for the first time in a single volume the astonishing range of a major philosopher To explore the risks ambiguities and unstable conceptual situations of contemporary thought it takes modes of negation especially the negation intrinsic to the ethical as its central thread Ranging from twentieth century European philosophy to traditional Jewish thought from analyses of dance music and novels to the question of the name of God from the phenomenology of the body to recent biological research its profoundly learned and humanely engaged discussions remain always mindful that even as philosophy crosses over into new spaces of thought the philosopher remains standing within and responsible a historical legacy one conditioned by the negative Art and Masculinity in Post-War Britain Gregory Salter, 2020-05-18 In this book Gregory Salter traces how artists represented home and masculinities in the period of social and personal reconstruction after the Second World War in Britain Salter considers home as an unstable entity at this historical moment imbued with the optimism and hopes of post war recovery while continuing to resonate with the memories and traumas of wartime Artists examined in the book include John Bratby Francis Bacon Keith Vaughan Francis Newton Souza and Victor Pasmore Case studies featured range from the nuclear family and the body to the nation Combined they present an argument that art enables an understanding of post war reconstruction as a temporally unstable long term phenomenon which placed conceptions of home and masculinity at the heart of its aims Art and Masculinity in Post War Britain sheds new light on how the fluid concepts of society nation masculinity and home interacted and influenced each other at this critical period in history and will be of interest to anyone studying art history anthropology sociology history and cultural and heritage studies **Revisiting the Jewish Question** Elisabeth Roudinesco, 2014-03-10 What does it mean to be Jewish What is an anti Semite Why does the enigmatic identity of the men

who founded the first monotheistic religion arouse such passions We need to return to the Jewish question We need first to distinguish between the anti Judaism of medieval times which persecuted the Jews and the anti Judaism of the Enlightenment which emancipated them while being critical of their religion It is a mistake to confuse the two and see everyone from Voltaire to Hitler as anti Semitic in the same way Then we need to focus on the development of anti Semitism in Europe especially Vienna and Paris where the Zionist idea was born Finally we need to investigate the reception of Zionism both in the Arab countries and within the Diaspora Re examining the Jewish question in the light of these distinctions and investigations Roudinesco shows that there is a permanent tension between the figures of the universal Jew and the territorial Jew Freud and Jung split partly over this issue which gained added intensity after the creation of the State of Israel in 1948 and the Eichmann trial in 1961 Finally Roudinesco turns to the Holocaust deniers who started to suggest that the Jews had invented the genocide that befell their people and to the increasing number of intellectual and literary figures who have been accused of anti Semitism This thorough re examination of the Jewish question will be of interest to students and scholars of modern history and contemporary thought and to a wide readership interested in anti Semitism and the history of the Jews

**Truth in the Late Foucault** Paul Allen Miller,2024-05-30 The first full treatment of truth as a core philosophical concept in the late Foucault this volume examines his work on the ancient world and the early church Each essay features a deep examination as to how the topics of truth and sexuality intersect with and focus on Foucault s engagement with ancient philosophy and thought Truth in the Late Foucault offers readings on Plato Artemidorus Cicero Sophocles and the Stoics and pays close attention to Cassian Paulinus of Nola and early Christian practices of confession With the publication of the long awaited volume 4 of the History of Sexuality Confessions of the Flesh the shape of the final Foucault is now brought into stark relief As well as looking at ancient thought the contributors explore Foucault s work in relation to philosophers such as Gadamer Heidegger Derrida and Descartes Foucault s long running and often contentious dialogue with psychoanalysis on the relation between truth and the subject is also examined Each essay not only makes an important statement but also is part of an interconnected arc of topics and understanding covering both the ancient and modern periods This book reveals that Foucault s concern with antiquity raises questions deeply pertinent to the present moment
