Kummerow,Kenji Nakamura,F. Joseph Turk,2020-04-10 This book offers a complete overview of the measurement of
precipitation from space which has made considerable advancements during the last two decades This is mainly due to the
Tropical Rainfall Measuring Mission TRMM the Global Precipitation Measurement GPM mission CloudSat and a carefully
maintained constellation of satellites hosting passive microwave sensors The book revisits a previous book *Measuring
Precipitation from Space* edited by V Levizzani P Bauer and F J Turk published with Springer in 2007 The current content has
been completely renewed to incorporate the advancements of science and technology in the field since then This book
provides unique contributions from field experts and from the International Precipitation Working Group IPWG The book will
be of interest to meteorologists hydrologists climatologists water management authorities students at various levels and
many other parties interested in making use of satellite precipitation data sets Chapter TAMSAT is available open access

Functioning* Richard J. Hobbs,Harold A. Mooney,2012-12-06 Harold A Mooney and Richard J Hobbs At present there is
enormous concern about the changes that are occurring on the surface of the earth and in the earth s atmosphere primarily
as a result of human activities These changes particularly in the atmosphere have the potential for altering the earth s
habitability International programs unprecedented in scope including the International Geosphere Biosphere Program have
been initiated to describe and understand these changes The global change program will call for coordinated measure ments
on a global scale of those interactive physical and biological pro cesses that regulate the earth system The program will rely
heavily on the emerging technology of remote sensing from airborne vehicles particularly satellites Satellites offer the
potential of continuously viewing large seg ments of the earth s surface thus documenting the changes that are occur ring
The task however is not only to document global change which will be an enormous job but also to understand the
significance of these changes to the biosphere Effects on the biosphere may cover all spatial scales from global to local The
possibility of measuring biosphere function remot ly and continuously from satellite imagery must be explored quickly and
thoroughly in order to meet the challenge of understanding the con sequences of global change Initial guidelines and
approaches are currently being formulated Dyer and Crossley 1986 JOI 1984 NAS 1986 Rasool 1987 There are many
