Creating a new placemark

In Google Earth, adding placemarks is a simple way to save a location or multiple locations. Placemarks can be used to [create tours](#), snapshot a certain view, and much more.

To learn more about creating a new placemark, watch the video or follow the instructions below.

Watch the video

Follow the instructions

1. Position the 3D viewer to contain the spot you want to placemark. Consider zooming into the best viewing level for the desired location. Choose any one of the following methods:
 - Select **Placemark** from the 'Add' Menu.
 - Click the Placemark icon on the toolbar menu at the top of the screen

The 'New Placemark' dialog box appears and a 'New Placemark' icon is centered in the viewer inside a flashing yellow square. Position the placemark. To do this, position the cursor on the placemark until the cursor changes to a pointing finger and drag it to the desired location. The cursor changes to a finger pointing icon to indicate that you can move the placemark.

You can also lock the placemark position or set advanced coordinates for its position. Set the following properties for

New Trends in Earth-Science Outreach and Engagement Jeanette L. Drake, Yekaterina Y. Kontar, Gwynne S. Rife, 2013-12-11 Perhaps just as perplexing as the biggest issues at the core of Earth science is the nature of communicating about nature itself. *New Trends in Earth Science Outreach and Engagement: The Nature of Communication* examines the processes of communication necessary in bridging the chasm between climate change and natural hazard knowledge and public opinion and policy. At this junction of science and society, 17 chapters take a proactive and prescriptive approach to communicating with the public, the media, and policy makers about the importance of Earth science in everyday life. Book chapters come from some 40 authors who are geophysical scientists, social scientists, educators, scholars, and professionals in the field. Bringing diverse perspectives, these authors hail from universities and research institutes, government agencies, non-profit associations, and corporations. They represent multiple disciplines including geosciences, education, climate science,

education environmental communication and public policy They come from across the United States and around the world Arranged into five sections the book looks at geosciences communication in terms of 1 Education 2 Risk management 3 Public discourse 4 Engaging the public 5 New media From case studies and best practices to field work and innovations experts deliver pragmatic solutions and delve into significant theories including diffusion argumentation and constructivism to name a few Intended for environmental professionals researchers and educators in the geophysical and social sciences the book emphasizes communication principles and practices within an up to the minute context of new environmental issues new technologies and a new focus on resiliency
