LAB EXERCISE 5: Lizard Evolution Virtual Lab

Answer the following questions as you finish each module in the virtual lab.

MODULE 1: Introduction

At the beginning of the virtual lab, you were asked to select eight lizards from a category. What criteria did you use to select your group?

My criteria were: size, color, and shape of the lizards.

Did your teacher grade individual team efforts?

Yes, my teacher graded individual team efforts. We were given a list of questions to answer and we were given a list of questions to answer. We were given a list of questions to answer and we were given a list of questions to answer.

An adaptation is a structure or function that is inherited by a population because it increases the ability to survive and reproduce in a particular environment. Provide one example and an explanation of an adaptation in the desert lizard.

One example of an adaptation is the ability to survive in the desert. The lizards have a thick skin that helps them survive in the desert. They also have a thick skin that helps them survive in the desert.

Provide one evolutionary explanation for why lizards that are good at climbing trees (i.e., the green) would have survived a human-induced extinction.

One evolutionary explanation for why lizards that are good at climbing trees would have survived a human-induced extinction is that they were able to escape the extinction event by climbing trees.
