**Pakistan and International Law** Ahmad Ghouri, 2025-10-23 *Pakistan and International Law Dynamics of Identity and State Practice* offers a pioneering exploration of Pakistan's evolving relationship with international law. Framed through the lens of state identity, this volume critically examines how Pakistan, as a post-colonial and Muslim majority state, has engaged with, adapted to, and influenced international legal norms across diverse domains: from the United Nations system to individual rights and environmental protection, interstate arbitration, right to development, security, water, taxation, and more. The book features contributions from leading scholars and practitioners combining doctrinal analysis with critical perspectives rooted in Third World Approaches to International Law. It provides in-depth commentary on Pakistan's legislative, judicial, and diplomatic practices, offering a rare state-specific study that fills a significant gap in international legal scholarship. Readers will gain a nuanced understanding of Pakistan's legal landscape and its broader implications for global justice, legal pluralism, transnational legal discourses in international law, and the future of international law. It offers valuable insights into how international law operates in diverse cultural and political contexts and how state identity shapes and is shaped by global legal norms. The work will be of interest to academics, legal practitioners, policymakers, and students of international law, post-colonial legal studies, Islamic state practices, and South Asian geopolitics.

**The Prospect of Nuclear Jihad in South Asia** Musa Khan Jalalzai, 2015-10-01 When we talk about Pakistan's nuclear weapons, armed forces, and civilian governments, then controversies and uninvited misperceptions swirl in our minds. If we take in the broad picture, we inevitably conclude that not all is going in the right direction in the country, and that is because the army, politicians, and the establishment perceive jihadism as a profitable business. They run this business of killings and torture through their proxies. While we study the militarized mind of Pakistani generals and recognize their resentment towards civilian governments, we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations. International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future. When we study the militarized mind of Pakistani generals and recognize their resentment towards civilian institutions, we find more controversies about the role of armed forces and their relationship with worldwide terrorist organizations. The Pakistan military controls the financial market, stock exchange, real estate business, banking sector, and smuggling of narcotics. Ethnic representation within the armed forces raises serious concerns. Some experts say this is not a national army but view it as the club of Pashtun and Punjabi generals. The army has failed to develop a true ethnic representation process or motivate Baloch and Sindhis to join the armed forces, but they certainly have gained experience in killing innocent civilians. Then there is the question of the Saudi investment in Pakistan's Islamic nuclear bomb. Saudi Arabia's link with Pakistan's nuclear and missile program has long been the source of speculation that Pakistan might either station nuclear forces on Saudi sand or provide a nuclear umbrella to the Wahabi state in return for oil supply or that

the Saudis would purchase nuclear weapons from Pakistan International journalist Musa Khan Jalalzai is ideally positioned to present us with a picture of what is actually afoot and what it means for the future American Foreign Policy Current Documents, 1986 *Pakistan's Wars* Tariq Rahman, 2022-06-09 This book studies the wars Pakistan has fought over the years with India as well as other non state actors Focusing on the first Kashmir war 1947-48 the wars of 1965 and 1971 and the 1999 Kargil war it analyses the elite decision making which leads to these conflicts and tries to understand how Pakistan got involved in the first place The author applies the gambling model to provide insights into the dysfunctional world view risk taking behaviour and other behavioural patterns of the decision makers which precipitate these wars and highlight their effects on India Pakistan relations for the future The book also brings to the fore the experience of widows children common soldiers displaced civilians and villagers living near borders in the form of interviews to understand the subaltern perspective A nuanced and accessible military history of Pakistan this book will be indispensable to scholars and researchers of military history defence and strategic studies international relations political studies war and conflict studies and South Asian studies

**The UK's foreign policy approach to Afghanistan and Pakistan** Great Britain: Parliament: House of Commons: Foreign Affairs Committee, Richard Ottaway, 2011-03-02 In this report the Foreign Affairs Committee calls on the British Government to use its influence to persuade the US to engage more fully and swiftly with the process of political reconciliation in Afghanistan if the US wishes to disengage its forces there Although the current international emphasis favours intense military pressure aimed at defeating the insurgency it is clear that military pressure alone is not enough to bring security and stability to Afghanistan The evidence presented to the Committee has suggested that the current full scale and highly intensive ISAF counter insurgency campaign is not succeeding The Committee question the fundamental assumption that success in Afghanistan can be bought through a strategy of clear hold and build The distinction between al Qaeda and the Taliban is crucial to generating appropriate policy responses in Afghanistan The Committee says that despite the significant resources that have been invested in Afghanistan and the enduring wholehearted and admirable commitment and sacrifices of British personnel the UK has not yet achieved its stated goals There is also evidence that the core foreign policy justification for the UK s continued presence in Afghanistan namely that it is necessary in the interests of UK national security may have been achieved some time ago given the apparently limited strength of al Qaeda in Afghanistan The security rationale behind the UK Government s decision to announce the 2015 deadline for the unconditional withdrawal of UK combat forces remains unclear and there are a number of potential risks inherent in such an approach
