

Safety: Regulations for domestic sewing machines are substantially basic. CSEI Publications No. 108, Part A, Section C, Article 7.17 states that machines should be used on a firm surface or suitable mechanical parts or accessories. The machine plug can be disconnected from the power supply by removing the plug from the wall socket.

Large outlets designed for the storage of material under the base of the machine are 1000 x 1000. They therefore have an extra-large support for the table and base, which, depending on conditions, may be 1000 x 1000 and 1000 x 1000.
